Compliments of Dr. Domenic Sardaro

Dr. Domenic Sardaro

Dear Neighbour,

Please join us in welcoming Dr. Sardaro to our dental practice. His achievements are impressive:

- Completed his North American dental accreditation at the Boston University Goldman School of Dental Medicine, earning his Doctor of Medical Dentistry degree (Magna Cum Laude!).
- Earned a Certificate of Merit AAPD Pre-doctoral Student Award for outstanding promise in the field of Pediatric Dentistry.

Dr. Sardaro recognizes the delicate emotions of children and provides a caring and compassionate environment. A child's early dental experiences contribute to how dental care is pursued as an adult — Dr. Sardaro is eager to make his pediatric patients feel comfortable and at ease while in his care.

Dentistry aside, Dr. Sardaro has played competitive hockey for 25 years, and is now a volunteer coach for six-year-olds.

Dr. Sardaro and team invite you to bring your smile into our nearby neighbourhood dental practice!

Dr. Sardaro & Team
(905) 873-2121

Please do not hesitate to call us for a no-obligation introductory consultation with any of our dentists. We would be happy to answer any questions you may have.

A NEW YEAR, A NEW YOU!

Happy New Year! As we settle into the new year, many of us make resolutions to take better care of ourselves, so why not get a healthy start on the year by calling us today to book your first dental appointment of 2010?

Have a look at the common tooth problems listed below. If you can relate to one or more, please ask us to explain how we can solve them, right here in our office.

My teeth are yellow and discoloured.

This is probably the most common complaint we hear in our office, but, luckily, also one of the easiest to solve. Ask us about different whitening techniques, from in-office "instant" whitening, to take-home kits, to options for teeth that don't respond to regular whitening techniques.

My teeth are too small for my mouth.

Your teeth may be too small for the space allotted, resulting in gaps between your teeth — most noticeably the top, front teeth. Depending on the degree of space between the teeth, we can close the gaps using

crowns, veneers, bonding or orthodontics.

My teeth are chipped and worn.

Chipped, worn teeth can affect the aesthetic value of your smile, and, subsequently, how you project yourself. Remember that teeth can't repair themselves, and in fact, once the enamel on your teeth has been compromised, there is a high possibility you'll experience more breakage on the affected teeth. Allow us to present options to protect and correct compromised teeth.

These are just some of the dental concerns we can help with. If you're even the slightest bit self-conscious about your smile, you owe it to yourself to come in and learn more about your dental options.

We look forward to creating your new healthy and confident smile!

Straighten Your Smile With Invisalign®

If you are a teen or adult who has been putting off having your teeth straightened because you don't want to endure the discomfort and unsightly metal construction of traditional braces, we're pleased to introduce you to Invisalign®, an "invisible" orthodontic alternative.

Invisalign® uses a treatment plan involving a series of clear, removable, aligners that will straighten your teeth comfortably and unobtrusively. You'll simply wear each set of aligners for about two weeks, removing them only to eat, brush and floss. As you replace each aligner with the next one in the series, your teeth will move, little-by-little, until they have straightened to their correct positions.

Dr. Sardaro, along with being a general dentist, is a recognized 2010 Preferred Provider of Invisalign®. With over 20 Invisalign® cases under his care, Dr. Sardaro continues to strive towards excellence. Having a confident smile can change everything, so call Dr. Sardaro today to see how he can help you achieve the smile of your dreams!
