\$10,000
in Gov't Grants
& Rebates**

Mike Patterson (left), and Anthony Maan (right) own and operate The Halton Window & Door Company. They say there has never been a better time for a homeowner to replace their windows and doors. With the HST just around the corner and the \$10,000 in Gov't grants and rebates nearing it's end, now is the time to save. We have helped many homeowners in Halton Hills take advantage of the free government money. Now we are encouraging you to do whatever renovations you can before the HST kicks in on July 1st, 2010. The Halton Window & Door Company is also offering to pay the GST on all purchases for a limited time. This translates to a real savings of around 25% for most homeowners says Anthony. It's just a smart time to renovate he said. Anthony also mentioned that many people leave it too late to plan their projects and can miss out on good savings. Generally homeowners need to allow 8-12 weeks for the installation. That's after getting their quotes and choosing a company to do the job. He said now is the time to call to plan for spring and summer installation. If people miss out on this they are guaranteed to pay more after July 1st he said.

Call The Halton Window & Door Company now for your free in home consultation and to learn more about the government grants and savings.
