

Cancer ride participants to host fundraiser

Laura McGowan and Thomas Snow must raise \$2,500 each as participants in the Ride to Conquer Cancer. The duo will be hosting a fundraising night on May 29, 7:30 p.m. to 1:30 a.m. at the McGibbon Banquet Hall, back entrance.

There will be a cash bar, cash games, raffles, prizes, food and live music featuring Laces Out. All proceeds go the Ride to

Conquer Cancer benefiting The Campbell Family Institute at The Princess Margaret Hospital.

Tickets are \$10 in advance, \$15 at the door. Proceeds go to the Ride to Conquer Cancer benefiting The Campbell Family Institute at The Princess Margaret Hospital.

Should you be unable to attend this fundraiser, you can donate to Laura or

Thomas' campaign online. Just visit conquercancer.ca and click "donate." Enter Laura McGowan or Thomas Snow and their #540782-2 or 543169-6 to make a donation.

This is the third annual Ride to Conquer Cancer from Toronto to Niagara Falls. For more information visit conquercancer.ca or call 877-699-BIKE

NOTICE OF STUDY COMMENCEMENT AND PUBLIC INFORMATION CENTRE #1

Sustainable Halton Water and Wastewater Master Plan Municipal Class Environmental Assessment Study

Background

Halton Region has initiated a Region-wide Water and Wastewater Master Plan under the Sustainable Halton process to identify a preferred servicing strategy to support growth to the year 2031.

This strategy will accommodate the 2031 population / employment and intensification targets set out in the Places to Grow Growth Plan (2005). In accordance with the Places to Grow Act (2005), the residential and employee population in Halton Region is expected to grow by 300,000 and 170,000 respectively.

This Master Plan will consolidate information related to previous Studies and Master Plans for north and south Halton including the 2008 South Halton Water and Wastewater Master Plan Update which was prepared to address the water and wastewater servicing needs within the 2021 planning horizon. The recommendations from previous Master Plans will be reviewed in the context of the current regulatory environment and planning estimates.

The study area for the Sustainable Halton Water and Wastewater Master Plan (refer to map) includes Oakville, Burlington, Milton and Halton Hills (including Georgetown, Acton and the Highway 401 Corridor).

Problem Statement

To develop a comprehensive strategy for providing water and wastewater servicing to existing and approved growth areas in Halton Region to 2031.

The Process

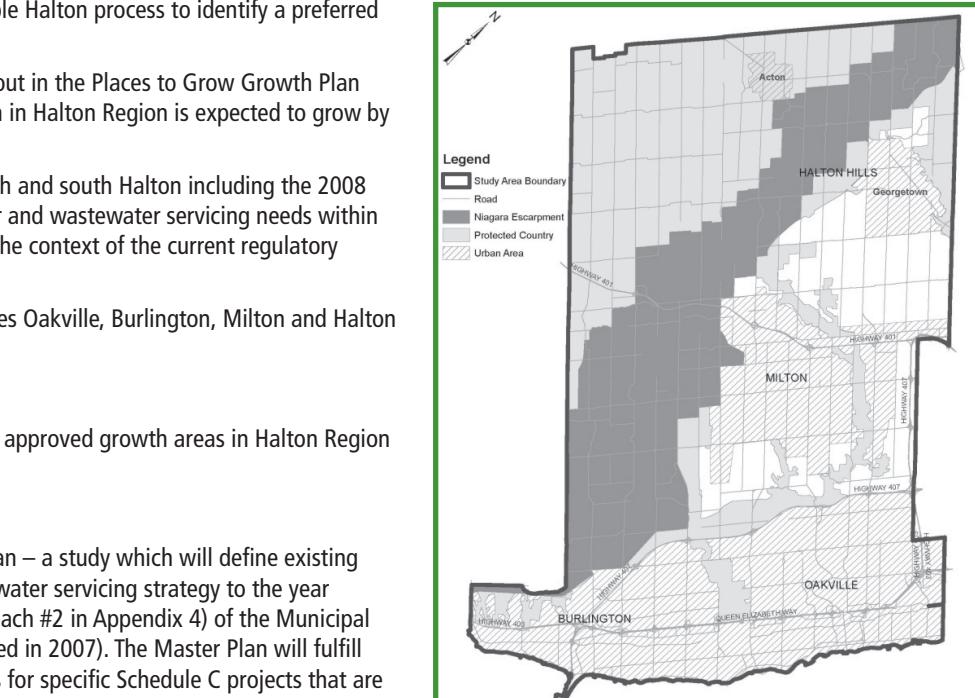

This notice signals the commencement of the Sustainable Halton Water and Wastewater Master Plan – a study which will define existing problems/opportunities, consider and evaluate solutions, and identify a preferred water and wastewater servicing strategy to the year 2031. The Study follows the approved master planning process as outlined in Section A.2.7 (Approach #2 in Appendix 4) of the Municipal Engineer's Association (MEA) Municipal Class Environmental Assessment (October 2000 as amended in 2007). The Master Plan will fulfill the requirements for Schedule A, A+, and B projects and become the basis for future investigations for specific Schedule C projects that are proposed within.

A key component of the study will be consultation with interested stakeholders including the public, special interest groups and regulatory agencies. The study work plan provides for two rounds of Public Information Centers (PICs) at four locations (one in each Local Municipality). Representatives from the Region and its consultants will be present at the PICs to answer questions and discuss the next steps in the study. This notice advises the public of the first round of PICs.

Public Information Centre Locations

Municipality	Date	Time	Location
Town of Milton	Wednesday, May 26, 2010	6:30 - 8:30 p.m.	Milton Sports Centre 605 Santa Maria Boulevard (Room 3)
City of Burlington	Thursday, May 27, 2010	6:30 - 8:30 p.m.	Assumption High School 3230 Woodward Avenue (Cafeteria)
Town of Oakville	Monday, May 31, 2010	6:30 - 8:30 p.m.	Halton Regional Centre 1151 Bronte Road (Gymnasium)
Town of Halton Hills	Wednesday, June 2, 2010	6:30 - 8:30 p.m.	Acton Arena & Community Centre 415 Queen Street East (Seniors Centre)

NOTE: At the Town of Halton Hills PIC, an update will be provided on the Lindsay Court Well Field Expansion Class EA Study which is assessing an increase in the water taking from 6,545 m³ / day to 7,500 m³ / day. The Lindsay Court Class EA study was initiated in late 2007 as a Schedule B Class EA and is running concurrently with the Master Plan. Its findings are being considered in the development of the overall water servicing strategy for Georgetown.

You are encouraged to attend the PIC and provide your comments regarding the preliminary preferred servicing concepts so that they may be included in the study. Comments received through the course of the study will be considered in finalizing the recommended water and wastewater servicing strategy. Comments and information regarding this study are being collected in accordance with the Freedom of Information and Protection of Privacy Act and to assist the project team in meeting the requirements of the Class EA process. With the exception of personal information, all comments will become part of the public record.

Please contact either one of the following project team members if you have any questions or comments related to the study, wish to obtain more information on the study or wish to be added to the study mailing list:
