HEARING SCIENCES

Audiology and Hearing Aid Centre

I think my hearing is okay but my family says I don't hear them.

BRING THIS AD FOR A COMPLIMENTARY HEARING TEST \$60 VALUE
Valid until JULY 31/10
Age 55+

People with a mild to moderate hearing loss may be unaware of how much you are missing because you don't know what you couldn't hear! Family members that talk to you frequently are very aware of what you misheard. Trying to piece together bits of the conversation from the fragments heard results in frustration for everyone. Hearing technology has improved dramatically in the last 5 years. You may be amazed to know how well you can hear. The first step to better hearing is a hearing test.
