### KASE START WITH ART NURSERY PROGRAM

A fun filled morning, five days a week, for your little ones to begin their learning process.

Research has shown that art serves as a child's first language, laying the groundwork for speaking, reading and writing. Arts learning has also been shown to impact children's physical, social and emotional development. KASE has a certified teacher for the program and she will be helping the little ones with ABC's and 123's, all through the happy medium of art.

The program accepts five students and is a half day course. **Register Now**
