### Parkette unveiling

Halton Hills Councillor Jane Fogal (left) joined with Lil Taggart of the Georgetown Horticultural Society to unveil the sign at the Mary Street Parkette recently. The Society, which is celebrating its 90th anniversary this year, refurbished the park to mark the milestone.

### COUNSELLING THE NEW HEARING AID USER

The following few tips, if followed correctly, will prolong the benefits and enjoyment of better hearing:

- Do not get the hearing aid wet
- Do not leave the instrument where it is too hot or cold
- Try not to drop the hearing aid
- Do not spray cleaning solution or hair spray on the instrument
- Keep the instrument and batteries out of the reach of small children and especially pets

If any of the above problems do occur, please don't hesitate to call...

### UPPER DENTURES

Your upper dentures are very important for many reasons. You especially want your dentures to look good, but it is also important that they fit well.

Because of the natural curve in the roof of your mouth (palate) suction is created, therefore holding the upper denture snugly in place. Your tongue can also aid in helping to keep the denture in place. Because of these factors, few people have trouble with stability.

The upper denture is usually more visible than the lower, therefore the look of the upper is almost as important as the actual fit. Because the upper denture is so visible, as you are constantly talking, eating, and smiling, it is very important that you have natural, nice-looking teeth. We work hard to make sure that you have teeth that suit you. You don't want them too big, too small, too white, too yellow, etc. Just because you wear dentures doesn't mean they have to look like dentures!

Today's dentures are more natural looking than ever before. Together we can create a more natural looking you. We make everything from start to finish in our own lab. We build beautiful smiles!! Call us for a free consultation today.

Creating confident smiles since 1982.
