Special pullout section

*Fall is a perfect time for landscaping projects*

Landscape Creations owner Bryan Robinson (left) was surrounded by staffers (front, clockwise) Michelle Agoston, Mike Rideout and Aaron Maltby, as they featured the numerous types of stone steps available at their 46 Armstrong Avenue location. The staff at Landscape Creations are gearing up for a busy fall. Whether you are doing your fall landscape project yourself or hiring a contractor their expert staff will help you design and plan your project from start to finish, or refer you to an elite contractor of your choosing. They carry a large range of landscaping products from Unilock interlocking pavers, retaining walls, natural stone pavers, flagstone, armor stones, natural steps, aggregates, soils, sod, outdoor lighting, tools and more.
