****to confirm your registration****
PLEASE CALL 905-702-0013

The 97th annual Acton Fall Fair was held this past weekend at Prospect Park and predominantly sunny skies made for good crowds.

Above: Ripp, a six-year-old border collie, gets some big air off the back of trainer/handler Colleen Miller from Waterford during the Northern Borders Flyball & Canine Performance Team show.

Right: In all the noise and chaos of the fair Acton Village Constable Morene Smith couldn't resist holding quiet and calm six-month-old Kyle Alexander Wogrinetz.

Below: Jackson Vallance, 6, of Acton gave it his best trying to herd sheep, but the sheep were having none of it.

... Lend Me Your Ears

By Cory Soal R.H.A.D.

A diminished social life is one of the most difficult aspects of age related hearing loss. Many people avoid drawing attention to their hearing loss by having fewer social contacts when it becomes difficult understanding what is being said. The result is an altered and lonely existence that family and friends may mistake for dementia.

Learning new strategies to cope with hearing loss could go a long way to restoring confidence and improving communication. The Hearing Clinic recommends the following: Inform people of the hearing loss so they may modify their speech; eliminate background noise; watch the speaker carefully and sharpen natural lip-reading abilities; ask the speaker to repeat what was said if necessary, and above all else; have your hearing thoroughly tested and properly fit with one of today's modern hearing instruments. Contact The Hearing Clinic if you or someone you know needs assistance.

Tooth Chatter

Georgetown Denture Clinic

CARING FOR DENTURES

1. Remove dentures every night. Brush your teeth, tongue and gums carefully with a soft toothbrush. Be sure to clean and massage your gums. If your toothbrush causes irritation, try moistened gauze.
2. Soak dentures overnight in lukewarm water or denture cleanser. This loosens plaque so you can brush it off more easily. If your dentures have metal clasps, use water only.

See your denturist regularly. Your mouth changes constantly so dentures will need adjusting from time to time to ensure the best fit.

If you are in hospital, it is recommended that you have your name inserted in your dentures, in case of mix-ups. Name inserts can be done while you wait, at a very minimal cost.

You do not need a referral; simply call our office direct for an appointment.

Creating confident smiles since 1982.
