Fernbrook saves energy, cash

Fernbrook Springs recently took an energy conservation leadership role in the community and completed two ERIP applications with Halton Hills Hydro in co-operation with the Ontario Power Authority (OPA) that qualified them for a combined rebate of \$54,144.

Fernbrook Springs has replaced 400W Metal Halide high-bay light fixtures with new energy-efficient T8 fluorescent fixtures, installed occupancy sensors throughout the warehouse and manufacturing areas and installed a rotary screw air compressor.

The initiatives undertaken by Fernbrook Springs have resulted in an electricity de-

mand reduction of 89.3 kW, which results in energy cost savings for Fernbrook Springs.

Halton Hills Hydro in co-operation with the OPA is assisting Commercial, Industrial, and Institutional and Agricultural customers to conserve energy. The Electricity Retrofit Incentive Program focuses on the areas of lighting, motors, heating ventilation and air conditioning (HVAC) and the overall electricity systems.

OPP charge Georgetown driver

A Georgetown man is facing charges after Caledon OPP officers saw a vehicle being driven erratically on Mayfield Rd. in Caledon about 12:20 a.m. Saturday.

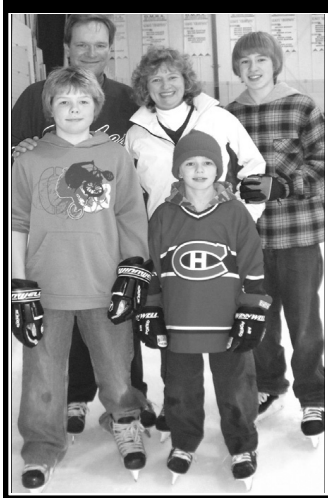

Charged with impaired driving, having over 80 mg of alcohol in 100 ml of blood, obstruct police, driving while suspended and speeding is Richard Martin, 51.

Martin is to be in Orangeville Court March 17.

Halton Hills firefighters were called to a Mill St. East residence in Acton about 9 a.m. last Tuesday because the tenant in an upstairs apartment was trapped inside.

The woman couldn't get out of the apartment due to a broken door handle. Firefighters got the door open, and temporarily put duct tape over the latch so she wouldn't get trapped again and could have the handle replaced or repaired.
