HEARING SCIENCES

Audiology and Hearing Aid Centre

"When I am in a group, I just smile because I can't follow the conversation"

Many people feel frustrated when they can't participate in small group conversations. This is often due to the room noise overwhelming the soft high frequency speech sounds that are so critical for speech clarity. Poor acoustics such as large rooms, restaurants or cars add to the confusion. Today's hearing instruments adjust automatically to optimize speech information and controlling the background noise while speech is present. With practice, most people find they are able to participate in conversations with ease again. Come and experience this new technology for yourself. The first step to better hearing is a hearing test.

BRING THIS AD FOR A COMPLIMENTARY HEARING TEST (\$60 VALUE. AGE 55+. VALID UNTIL MARCH 31, 2011 ONLY)

GEORGETOWN 905-877-0099 211 Guelph St., Suite 1 (in the M&M plaza, across from Winners)
