

Smart Commute and Save!

By Peter Paz, Smart Commute Halton

Smart Commute Halton is a free program funded by Halton Region and Metrolinx. Our mission is to help local employers and commuters explore different commute choices like carpooling, cycling and transit. Our goal is to ease gridlock, improve air quality and reduce greenhouse gas emissions while making commutes less expensive and more enjoyable.

Since 2007, Smart Commute Halton has helped several businesses in the community implement “smarter” alternatives to driving alone to work. We are always impressed with the number of employers who are truly committed to making a

difference in reducing greenhouse gas (GHG) emissions. Smart Commute Halton is lucky to have the following member businesses participating in the

Ltd., Sheridan College and State Farm Insurance.

Across the GTHA, the Smart Commute program has reduced GHG emissions by a staggering

of car travel on our local roadways. The Smart Commute program has also saved employees across the GTHA \$14.5 million dollars in commuting costs since 2007.

For more information about how your business can join Smart Commute Halton or how you can make a difference go to www.smartcommute.ca, or call us at 289-937-6503 or plan on attending an information session June 8th 4:30 – 6:00 PM at the Georgetown Lions Club hosted by Halton Hills Chamber of Commerce.
