# HALTON HILLS CHRISTIAN SCHOOL SCIENCE FAIR

The students at Halton Hills Christian School channelled their inner scientists recently when the school hosted its annual Science Fair. Every single student – from the junior kindergarteners all the way up to the grade 8’s – participated in the wide-ranging fair, which included projects about the seasons, sleep patterns, which brand of battery is most cost effective, and which candy combined with which cola creates the biggest explosion. The projects were judged three different ways with the top scorers moving on to an Ontario-wide science fair at Ancaster’s Redeemer University College.

Elissa Keenleyside (left) and Faith Chappelle use colourful Skittles to explore the hidden world of subliminal messages.

The junior kindergarten class shows off the project they did with the senior kindergarteners.

Naomi Rowlinson, Chelsea Trudeau and Carter Cathcart transport a harvest with a half-yoke.

## “WHAT ARE YOUR INSURANCE POLICIES DOING FOR YOU?”

**Paul C. Armstrong**

At this brokerage, my knowledgeable staff are spending countless hours reaching out to our customers to explain “Auto Reform” and “Uncomplicate” the process. This often requires “after hours” duty to serve as we ought to. Telephone conversations with our clients and personal visits to our office remind us that we are on track in our communication efforts. All are pleased and know that we are looking out for them. They also are comforted in the fact they know their “Insurance Advisors”.

“Auto Reform” is not the only issue, but reviewing “Property Protection” on an ongoing basis for adequate “Replacement Cost” on buildings and contents for future losses. Explaining premium changes and policy limitations demonstrates a wiser insured. Recording “updates, “alterations-renovations” and “lifestyle changes” are essential for our clients’ well being.

Consumers not “Serviced” regularly will be the authors of their own misfortune because we all have “Choice” in how our “Insurance” is delivered. Don’t get caught with “Obsolete” coverage. Give your policies a “Check up”. Start now for a review before your policies expire.

I hope my readers have enjoyed my articles and learned something from them.
