

# SLEEP APNEA?

**We Can Help!**

Sleep apnea affects over 1 person in 15, it's more prevalent in men and 90% of those affected may be going undiagnosed and untreated. Chronic sleep apnea is a serious condition that not only robs people of rest, it can be detrimental to your health. The dangers of sleep apnea can be reduced through therapy and that's where Young's can help. Our short questionnaire will quickly determine if you're at risk. If you are, call your doctor. We'll also show you the effective usage and care of the latest equipment and make sure you get the full benefits of your therapy. If you think you have sleep apnea, don't delay, call your doctor or Young's today.
