

Kabinet Pro

MARGARET OLAH

When it comes to kitchen and bathroom renovations, Margaret Olah likes to think outside the box. Margaret owns and operates Kabinet Pro, a custom kitchen and bathroom cabinet company based in Georgetown.

Margaret and her colleague Ken work closely with homeowners to design functional layouts with high-quality cabinetry for kitchens and bathrooms. The business does everything from simple countertop replacements to overseeing entire kitchen and bathroom renovations.

"Sometimes we create a different layout than the client expected because we want to make a space that works," says Margaret, a kitchen design consultant. "We think of things differently so our clients get an innovative design they wouldn't get anywhere else."

With more than 15 years of experience in the industry, Kabinet Pro has earned a reputation for quality workmanship, honesty and competitive pricing. Margaret and Ken install the cabinets themselves and can refer clients to trusted local tradespeople to complete any other work.

Whether they're doing a small replacement or a large renovation, Margaret and Ken care about each and every project. Word of their work has spread across southern Ontario with clients calling from as far away as Concord and Barrie.

"We work very, very hard to give the best product, the best price and the best service," Margaret says. "We care passionately about every job."

Rapi Maan (Adamson Spa and Salon)

RAPI MAAN

In today's busy, stress-filled society, Adamson Spa and Salon is an oasis of calm and serenity. Located at the corner of Guelph and Adamson Streets in Norval, the spa offers a variety of hair and body services to help their clients relax and rejuvenate.

The spa recently introduced new laser and holistic treatments at the request of their clients. Adamson has been offering laser hair removal for five years and recently added IPL laser skin treatments to help with acne, pigmentation and anti-aging. The spa's expanded menu also includes Indian head massage, reflexology and reiki.

Adamson's friendly and courteous employees keep up-to-date on all the latest technologies and techniques in order to offer the best service and recommendations to their clients. Once or twice a month, guest speakers come into the spa to share their expertise with the spa's staff.

"There is so much out there and so much new stuff coming out that we have to be on top of things," says manager and esthetician Rapi Maan, who has worked at Adamson since 1999.

For Rapi, all this hard work pays off when she sees how happy her clients are at the end of the day.

"My favourite part is when the client says 'wow' after their treatment," she says. "I love when they're so happy that they hug me."

Angie Sinaguglia (Body Care by Angie)

ANGIE SINAGUGLIA

Angie is in the business of making people look good and feel even better. As the owner and operator of Body Care by Angie, she provides a variety of unique spa services aimed at helping her clients feel happier and healthier. The spa's menu includes different types of manicures & pedicures, waxing, eyelash extensions and laser hair removal. Its latest feature is Venus Freeze Body Contouring.

Venus Freeze is suitable for various face and body treatments including circumference reduction, cellulite improvement, skin tightening and anti-aging. Venus Freeze's dense energy matrix penetrates into multiple layers of the skin, ensuring noticeably visible results.

The (MP)² is a patented technology that combines both multi polar radio frequency (RF) along with pulsed magnetic fields. These two types of energy work in synergy to effectively deliver remarkable clinical results, and maximize your comfort and satisfaction.

The solution is to get rid of loose skin without plastic surgery. Venus Freeze takes years off your face & body. Treatments are pleasantly warm & relaxing and totally painless. Located for 20-plus years in Loredana Hair Studio, Angie & Loredana have built a very loyal customer base. "Over the years we grow with our clients, and the years quickly pass." They attribute this dedication to their friendly and knowledgeable staff. "We are a family, it's all about loving what you do," Angie says. "Now adding the superior results with Freeze body & face treatments, the Spa has reached a whole new level about feeling great about yourself & now looking younger & leaner in the never-ending battle against aging."

Young Dentistry

Dr. Kevin Young

For many Halton Hills residents, Dr. Kevin Young is a familiar face. The local dentist, who recently opened Young Dentistry, was born and raised in town and has already spent many years working in Georgetown as an associate dentist before setting out on his own. "I like seeing familiar faces come in and I like the fact that I can provide a service to the town where I was raised" says Dr. Young, who has been practicing dentistry for eight years.

For Dr. Young, going into the health care field was a natural choice. His grandfather and both parents chose pharmacy as a career and Young's Pharmacy has been the family business for many years. "I wanted to do something different," Dr. Young says. "Dentistry was a good fit because it combines science and health care with working with my hands and helping people."

Young Dentistry provides a broad range of services from general and preventative dentistry to more complicated procedures like dental implants, cosmetic dentistry and endodontics.

Dr. Young has equipped his office with the latest in dental technology, as well as kid-friendly features like movies and video games. "It's been a wonderful experience being able to start with a blank sheet of paper and build what I think is an ideal dental practice," Dr. Young says.

Bare Image Electrolysis & Laser Inc.

LYNNE GRAVELLE

Lynne Gravelle has been helping the people of Halton Hills look and feel better since 1999. Lynne, a certified electrologist and laser technician, is the owner and operator of Bare Image Electrolysis and Laser Inc. in downtown Georgetown. As the name suggests, Bare Image offers electrolysis and laser treatments to permanently remove unwanted body hair.

Electrolysis, which takes between six months and a year and half to complete, involves sending a small electric current into the hair follicle to permanently destroy the root. Laser hair removal, which usually requires between four and six treatments to take effect, uses a laser to destroy or impede several hair follicles at a time.

Lynne got started in the field after having permanent hair removal done herself. She had such a positive experience that she enrolled in the Electrolysis College of Canada and became a certified electrologist and laser technician. She then opened her business and has been helping the people of Halton Hills ever since.

"I like making people feel good about themselves by getting rid of the stuff they hate," Lynne says. "Women and men are so busy. I give them one less thing to worry about."

Byron Conrad (Appleby Systems, Georgetown)

BYRON CONRAD

Byron Conrad strives to exceed his customers' expectations. As a sales consultant at Appleby Systems Georgetown, he helps his customers find the right heating and/or cooling equipment to meet their needs.

In business since 1967, Appleby Systems Georgetown sells, installs and services fireplaces (Regency and Valor), barbecues (Broil King and Weber) and furnaces and air conditioners (Coleman and Bryant). Over the years, the company has built a loyal customer base thanks to the staff's exceptional customer service.

For Byron, working at Appleby Systems Georgetown is a perfect fit.

"This is what I've always wanted to do," he says. "I started working in the HVAC business when I was still in high school, so it's been almost 30 years now."

Most of Byron's day is spent on the road, meeting with customers in their homes, identifying their needs, assessing their homes' existing equipment and making recommendations based on his findings. His work takes him all over North Halton. As a longtime resident of Georgetown, Byron enjoys working in the same community he lives in.

"Georgetown is just a great town with great people," he says. "When I go out, people know me and I know them. It's awesome working in the community you live in."
