MINI is added a coupe version to its expanding model lineup.

MINI out to maximize driving fun

MINI is expanding its product family with the launch of a model geared squarely to maximizing driving fun.

The first two-seater in its line-up sees MINI Coupe not only breathe new life into its successful racing history but also provide a shot in the arm for the super-compact sports car class.

The selection of engines, chassis set-up, weight distribution and aerodynamic properties of the MINI Coupe are all focused on delivering optimum performance.

As a result, the new car radiates the brand's hallmark go-kart feeling with a whole new depth of intensity and achieves the best performance statistics ever recorded by a volume-produced MINI.

The level of chassis quality unmatched in the small car segment gives the new MINI model the handling flair you would expect from the brand.

The precise Electric Power Steering, the standard-fitted DSC stability control system, powerful brakes and measures designed specifically to optimize torsional rigidity ensure the MINI Coupe driver can enjoy the ultimate in go-kart feeling.

Its flat silhouette and innovative 'helmet roof' lend the MINI Coupe a sporty and individual allure.

In addition to the integral roof spoiler, an active rear spoiler optimizes airflow at higher speeds.

Helped by its extremely high-opening tailgate and large luggage area with through-loading facility, the MINI Coupe displays outstanding versatility in day-to-day driving, when transporting leisure items or sports gear, and on trips out with a lucky partner.
