The contest closes July 15.

**Gary Carr**

The Halton program promotes the importance of reducing outdoor water use to ensure a continuous supply of water during the summer months for emergency services like firefighting. The program was also designed to quickly communicate any outdoor water use restrictions that may be required by using a numeric and colour coded system that establishes three levels of outdoor water use:

Level 1 (Blue)— Careful use. Outdoor watering permitted.

Level 2 (Yellow)— Limited Use. Only water outdoors on odd or even days that correspond with your house number. Outdoor watering should only occur between 6-9 a.m. and 6-9 p.m.

Level 3 (Red)— Stop Use. No outdoor lawn watering or car washing is permitted in order to conserve water for emergency and essential services.

To learn more about the program or the contest dial 311 or visit [www.halton.ca/waterconservation](http://www.halton.ca/waterconservation).
