

Car Care & Sales Directory

Whatever your auto needs, a quick oil change or an affordable car, look to these providers for high-quality services and products.

Summer cleaning: Top tips to freshen up your ride

(NC)—To maintain your engine and help maximize the performance of your vehicle, here are five helpful car care tips to prep your favorite ride for spring:

- **Tire swap** – To ensure proper acceleration and braking, swap back to your summer or all-season tires and rotate them once a year for best performance.
- **Oil change** - Consult your owner's manual for the recommended grade and quality of oil for your vehicle, and perform an oil and oil filter change at the recommended intervals to provide year-round protection. While you're at it, top off all the other fluids.
