### ■ BREAKING NEWS: Gold is at a record high! ROADSHOW ARRIVES IN GEORGETOWN!!

By: Michael Ross  
Great Canadian Roadshow

*"Precious metals have seen a tremendous rise in value, with gold trading at record prices and silver climbing close to where it used to be in the early 1980's."*

**G**old! Gold! Gold! It seems like that's all you hear about nowadays, but with good reason. "It's a modern day gold rush", says Roadshow expert Kevin Duncan. "Ever since the recession hit in 2008, there's been a major shift in economic stability. Precious metals have seen a tremendous rise in value, with gold trading at record prices and silver climbing close to where it used to be in the early 1980's."

Here at the Roadshow we've noticed an enormous increase in the amount of gold scrap, gold jewelry, gold coins, silver scrap, silver jewelry, and silver coins that have come into our showrooms. Gold scrap has single-handedly been the most seen item at the Roadshow in the past 12 months. All types of broken jewelry, missing earrings, charm bracelets, and anything gold that's collecting dust should definitely be brought into the Roadshow!

At one of our shows in British Columbia, a man walked in who was a retired dentist. Throughout his years of practice, he accumulated a jar of gold fillings from his patients who required them to be removed. "The patients never wanted to take them home, so I kept them in a jar, and over the years it turned into a large pile of golden teeth!", exclaimed dentist Jeffrey Adams. Along with his golden teeth, Dr. Adams brought in some of his wife's broken and unused jewelry, and was able to walk out of the Roadshow with over \$8,000! Not bad for a jar of old teeth and broken necklaces!

During a time where the average household income is living from paycheck to paycheck, now is the best time to come into the Roadshow and exchange some of the old or broken jewelry that's just sitting around in your drawer, and get paid on the spot for it!

**See you at the Roadshow!**
