TOP \$\$\$ TIP

Always be sure to go over photos of your home carefully

before using them in your ad. You have one chance to make a first impression.

When opportunity knocks - answer the door!

We are definitely living in interesting times. No time in recent history has a negative U.S market created such a great opportunity for Canadians to be buying a home or refinancing an existing home or to consolidate those pesky credit cards and other debts.

The slowing of the U.S. recovery and their most recent decision to keep low interest rates until 2013 combined with our strong resource based economy and

strong dollar, creates an unprecedented opportunity to buy and mortgage real estate.

The Bank of Canada has been in an uncomfortable position of balancing increasing household Canadian debt and a strong dollar so are being pressured to keep rates at historical low levels.

If you have any mortgage questions you'd like answered, send them to pmotem@mortgagealliance.com
