Nordic Pole Walking: Wednesdays, 6:30 p.m. outside Gellert Centre; bring toonie for the Heart & Stroke Foundation.

More CALENDAR, pg. 15

NOTICE OF STUDY COMMENCEMENT

City of Brampton

Heritage Heights Transportation Master Plan

The Study:

The City of Brampton is undertaking a Transportation Master Plan as a supporting study to the Secondary Plan for the Heritage Heights Community (Secondary Plan Areas 52 and 53). This study will identify the transportation needs of the new community in the Secondary Plan area in northwest Brampton and consider a wide range of options to satisfy future travel demands. The Transportation Master Plan is centered on study objectives that:

- provide for the refinement of the corridor protection area through examining and defining the opportunity for a transportation corridor crossing of the Credit River Valley and
- focus on innovative, pedestrian/cycling-friendly, and transit-oriented community road and transit projects as part of a preferred transportation network and strategy needed to support the proposed new community.

The Process:

In support of the Secondary Plan, the study will be proceeding as a Transportation Master Plan in accordance with Phases 1 and 2 of the Municipal Class Environmental Assessment (2000, as amended 2007) The study will assess environmental, social, economic and technical criteria and will address the interests of area residents, stakeholders and local businesses in selecting the preferred solution.

Public Consultation:

The first of three Public Meetings is targeted for the fall of 2011. Notices for meetings will be on the City website and in local newspapers. If you wish to be added to the Study mailing list to be notified of upcoming events, please forward your contact information to the listed project team members below.

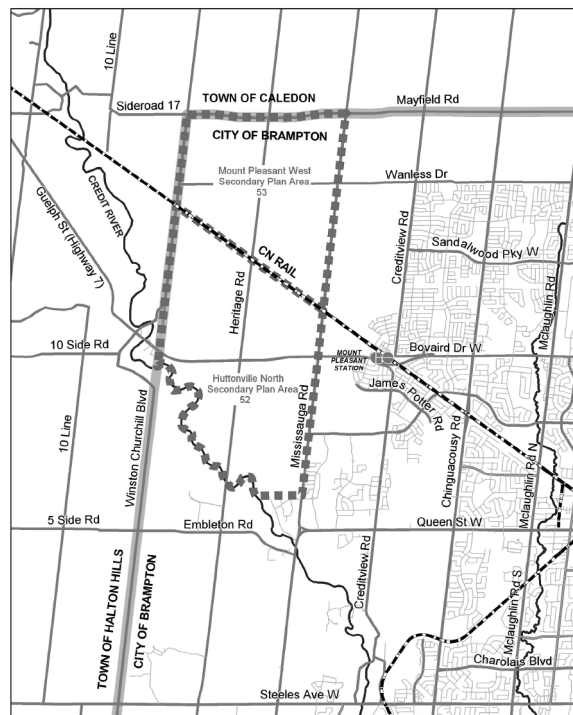

Comments Invited:

Your involvement is important!

The City of Brampton appreciates your input and ideas. Please take a moment to get involved. We encourage you to submit your comments, issues and additional information to either of the listed project team members below.
