

The potent Chevrolet Camaro is capable of 297 km/h with a 0-60 mph time of less than four seconds.

Camaro ZL1 by the numbers

The 2012 Chevrolet Camaro ZL1 Coupe accelerates from 0-96 km/h in 3.9 seconds and can reach a top speed of 297 km/h.

Starting at (Cdn) \$58,000, including Performance Traction Management and Magnetic Ride suspension, the ZL1 delivers supercar levels of performance and technology for the price of a sports car.

The heart of the Camaro ZL1 is a supercharged 6.2-litre engine is SAE-rated at 580 hp and 556 lb/ft of torque making it the most-powerful production Camaro ever.

The LSA features a Roots-style blower with an efficient four-lobe rotor set and compact intercooler

The ZL1 also features a standard dual-mode exhaust system, with vacuum-actuated valves in the exhaust pipes for a refined exhaust note at low speeds as

well as a free-flowing system for peak performance.

Power is delivered to the rear wheels through either a six-speed manual or automatic transmission.

"With 0-96 km/h taking less than four seconds, and a top speed in excess of 297 km/h, the power and acceleration of the Camaro ZL1 rivals many supercars," said Al Oppenheiser, Camaro chief engineer.

"And, horsepower is only half of the story, as the most significant measurement of the ZL1's potential is lapping the Nurburgring in 7:41.27.

"That is a great testament to the power, braking, grip, and balance of the Camaro ZL1, and to the well-rounded performance of the ZL1 that sets the bar for the sports-car segment."
