

# A TRUCK or SUV for every taste and need

## 2012 FORD F-150

Ford is changing pick-up truck rules once again. Its most popular vehicle ever, the F-150, is now available with a choice of two V-6 engines, both more powerful than the V-8s of last year. Two V-8 models are also in the 2012 catalogue. Ford dealers are also ready to sell the ever popular Ranger compact pick-up.

## 2012 HONDA RIDGELINE

Honda's Ridgeline is probably the most original pick-up on the market. Partly based on the manufacturer's Pilot SUV, it still has its own reinforced chassis. The Ridgeline is available in only one version, a four-door mid-sized pick-up truck powered by a great V-6 engine and all-wheel drive. It also incorporates some unique characteristics, including a lockable storage compartment located under the bed floor.

## 2012 CHEVROLET SILVERADO

The full-sized Chevrolet Silverado is one of North America's most popular vehicles. Like its competitors, it is available with a variety of engine options, including the reliable Duramax turbodiesel V-8 in its Heavy Duty models. Note that the Silverado is available in a hybrid version. Chevrolet dealers also continue to offer the compact Colorado pick-up.

## 2012 GMC SIERRA

Though the GMC Sierra seems to be the identical twin of the very popular Chevrolet Silverado, it still is offered in a variety of versions, including the luxurious Denali model. Just like the Silverado, it can come as a Heavy Duty model that can be powered by the Duramax turbodiesel V-8. Like the Silverado, the Sierra is also available as a hybrid.

## 2012 TOYOTA TACOMA

Starting from \$22,370

Toyota has been selling the very popular Tacoma mid-sized pick-up truck for quite a while. What's interesting is that the Tacoma is available in many formats, from a tame little grocery-getter to an all-out four-wheel drive, an off-road, mean-looking truck. The base model comes with a thrifty four-cylinder engine but many buyers prefer the powerful 4.0-litre V-6 powerplant. **TEST DRIVE TODAY!**

## 2012 HYUNDAI TUSCON

HYUNDAI'S STYLISH, VERSATILE CROSSOVER UTILITY VEHICLE.

Hyundai's compact crossover utility vehicle, the Tucson enters 2012 with a design that instantly sets it apart as one of the most distinctive, visually appealing vehicles in its class. It is the CUV that does it all. It's the right size for daily use around the city, with space for five people and enough cargo room for a long weekend away. And if that weekend trip leads you down a few slippery or snowy roads, you'll love Tucson's available All-Wheel Drive (AWD) that delivers a 50/50 torque split to the front and rear wheels for maximum traction. With sleek, modern styling and a highly efficient drive-train, we've done no less than change the game for CUVs. Explore the 2012 Tucson today.
