

# Join Halton's survey panel today

One of the things I enjoy as I travel through the Region and meet Halton's residents is the passionate discussion that I have with citizens about Regional issues.

Two-way communication between the Region and its residents is important and that is why I would like to take a moment to encourage you (and your friends and neighbours) to join Halton's new survey panel.

The best decisions are made when citizens are engaged and involved. Governments involve citizens in many ways; from elections, to surveys, public meetings and more recently through social media. That's why Regional Council made public engagement a key priority in our Citizens' Priorities Action Plan.

Thanks to the overwhelming interest shown by many residents in the Citizen's Reference Panel, a group of randomly selected residents who helped provide input to our Citizens' Priorities Action Plan, we are excited to launch Halton MVP (my View-Point).

This survey panel is an innovative and flexible opportunity for residents to provide Regional Council and staff with important information about satisfaction levels, needs, policies and priorities.

The online survey panel will ask participants to provide their viewpoint

## Gary Carr

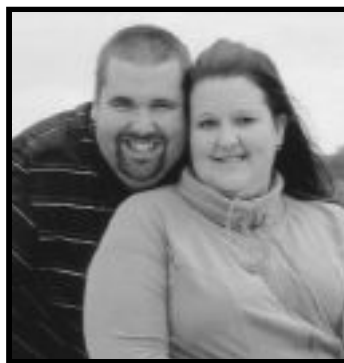

on a variety of Regional issues and initiatives including waste management, service optimization, housing, emergency preparedness and more.

As part of the program, and to ensure there is two-way communication, Halton Region will make summary survey results available online. By working together we can ensure that Halton remains a great place to live, work, raise a family and retire.

Registration is open to all residents of Halton Region, 18 years of age or older. For more information about Halton MVP, or to sign up, visit [www.halton.ca/MVP](http://www.halton.ca/MVP).

As always, if you have any Regional concerns or comments you would like to share, please feel free to email me at [gary.carr@halton.ca](mailto:gary.carr@halton.ca). You can also find me on Twitter @garycarrhalton or on Facebook.

—Gary Carr is the chair of Halton Region

## Buck and Doe

for  
**Bill McCallum and  
Amanda Giles**  
Saturday, June 2, 2012 at 8:00 pm  
Brampton Fair Grounds

## ... Lend Me Your Ears

### HOW DOES LOUD NOISE CREATE HYPERTENSION?

It appears to affect the nervous system, signalling the peripheral blood vessels to constrict as though under attack/ This triggers a surge of adrenaline and other fight-or-flight chemicals into the bloodstream - a response that carries with it the potential for glandular or cardiovascular changes, in other words, unwanted noise creates the same final results as increased stress (try to avoid)!

### WE BUILD BEAUTIFUL SMILES

A REMOVABLE PARTIAL denture is held in place by clamps that attach to neighbouring natural teeth. It replaces one or several teeth which may have been lost to gum disease.

**COMPLETE DENTURES (OR FULL DENTURES)** replace all natural teeth when there has been severe gum disease or other problems. It's very important to care for replacements for missing teeth, just as you would have your own natural teeth.

**CLEAN DENTURES** regularly. Plaque and tarter build up on dentures as easily as they do on natural teeth. Unless removed from your dentures, plaque and tarter can spread to your natural teeth and gums.

If you have any questions or concerns regarding your dentures, give us a call. Remember you do not need a referral, simply call our office direct to make an appointment.

*Creating confident smiles since 1982.*
