## Reduce Your Outdoor Water Use

During the summer months water consumption can double as a result of outdoor water use. To help ensure a continuous supply of water for essential and emergency services like firefighting, Halton Region is reminding residents to do your part to conserve by following the Outdoor Water Use Program which is a colour coded, numeric system designed to quickly communicate any water restrictions. Since winter snowfall and spring rains were minimal this year it is important for all residents to limit any non-essential outdoor water use. Learn more about Halton's outdoor water use program and current restriction level by visiting [www.halton.ca/waterconservation](http://www.halton.ca/waterconservation).
