

Hospital fundraiser set for Aug. 19

Concept Ford to host Vintage Car Show

Concept Ford is gearing up to host a charity Vintage Car Show on Sunday, August 19 from 10 a.m. to 2 p.m. to benefit the Georgetown Hospital Foundation's new emergency wing expansion project.

Vintage vehicles of all makes and models are welcome to take part in the show. More than 500 people attended last year's show to check out more than 65 vintage vehicles.

Registration is free but show participants and spectators are encouraged to make a voluntary donation to the Georgetown Hospital Foundation.

Vintage car owners can vie for Best

Car in Class and Best Ford prizes.

In addition to automotive delights there will be a barbecue, prizes, 50/50 draw and music provided by Time Warp Entertainment. Concept Ford encourages you to bring the whole family. All proceeds from the event activities will be donated to the Georgetown Hospital Foundation.

The Vintage Car Show takes place at Concept Ford, 361 Guelph Street, Georgetown. The rain date will be Sunday, August 26.

If interested in entering a vehicle contact: vintagecarshow@conceptford.com or 905-873-1626.

Ford has announced the range of its C-MAX Energi is expected to reach 550 miles.

C-MAX Energi to have extended electric range

The new Ford C-MAX Energi is expected to achieve more than 20 miles of electric-only range and a 550-mile overall range.

With a maximum electric-only speed projected to top that of Prius plug-in, C-MAX Energi drivers might be able to reach wherever they're going a little faster, too.

Topping it off, C-MAX Energi delivers fuel economy that is the equivalent of (US) 95 mpg equivalent (MPGe) combined city/highway.

C-MAX Energi is part of Ford's first dedicated line of hybrid vehicles in North America and will soon be available for order at Ford's certified

electric-vehicle dealerships.

C-MAX Energi operates just like a traditional hybrid with two key differences—owners must plug in the vehicle using its charge port and C-MAX Energi has a larger battery pack.

Power of choice

Already available for order is C-MAX Hybrid—expected to be North America's most affordable hybrid utility vehicle.

C-MAX Hybrid and C-MAX Energi figure prominently in Ford's rollout of five electrified vehicles this year.
