Young's Pharmacy's Know Risk Health Services department requires an additional nurse on a part time and or on-call basis. We require an out going friendly personality with a willingness to grow with us.

Activities include administering public health risk assessment through various screening methods such as ambulatory blood pressure measurement, ultrasonic bone density measurement, lung function testing, cholesterol, blood glucose and A1C screening.

As well we provide foot care, vaccination administration, wound care and CPAP management for OSA. We also teach Red Cross first-aid, CPR and babysitting training.

Our nurses also run and participate in clinic days promoting health awareness. We do all of the above on site in our pharmacy as well as off site in private homes, clinical settings, institutions, work places and other pharmacies.
