

Brampton Brick provides solutions to objections raised by 1,200 residents

Continued from pg. 13

In its letter of response Brampton Brick point out the property is identified as a High Priority Mineral Aggregate Resource Area in the Region of Peel's Official Plan, and while the area is designated Protected

Countryside in the Greenbelt Plan, "new quarries are explicitly permitted".

According to Brampton Brick, the quarry is expected to generate up to 30 truckloads of shale daily. The quarry will not be operated until Winston

Churchill Blvd. has been reconstructed to a truck route standard by the Regions of Peel and Halton, currently scheduled for 2015. The haul route will be north on WCB to Mayfield Rd. and east to Hwy. 10. The forecasted quarry traffic of up

to three loads per hour "will be minimal on a designated major regional arterial roads. The associated traffic noise increase is rated "acoustically insignificant".

Brampton Brick says it has developed a Property Value Guarantee Agreement for neighbours in close proximity to the quarry. It provides for the first five years of the quarry operation, Brampton Brick will make up the shortfall between the sale price and fair market value (rural properties not influenced by a quarry) for the eligible neighbours.

Brampton Brick says its study has concluded some local wells could be affected by the quarry operation over the long term, and the company has developed a water supply guarantee, for immediate and continuous trucked water supply until

municipal water servicing can be provided. Brampton Brick says it will not start excavation until it is assured municipal water servicing can be provided within five years.

In its response letter Brampton Brick says the natural environment will be monitored with adaptive water and vegetation management plans. The company does not expect the quarry to affect the quality or quantity of the Credit River, and with landscaping and screening, will not affect the cultural landscape or cultural features in the area. Air quality and noise meets Ministry of Environment standards, the company says.

DUFFERIN AGGREGATES - PROPOSED ACTON QUARRY EXPANSION

General Committee for the Town of Halton Hills will conduct a Public Meeting on proposed applications to amend the Town of Halton Hills Official Plan and Zoning By-law 2050-0050, as amended. The proposed application applies to the lands legally described as Lots 19, 20, 21, 22, 24, Concession 3 and Lots 20, 21, 22, Concession 4, former Township of Esquesing, Town of Halton Hills.

The purpose and effect of these amendments are to facilitate the expansion of the existing Dufferin Aggregates Acton Quarry operation. The proposed expansion consists of four phases referred to as Phases 4, Phase 5/6 East, Phases 5/6 West and Phase 7. The area proposed to be licensed under the Aggregate Resources Act would be 90.6 hectares and the extraction area would be 66.5 hectares.

Attached is a map showing the location of the lands to which the proposed Official Plan and Zoning By-law amendments would generally apply. The Zoning By-law Amendment only applies to lands that are outside of the Niagara Escarpment Development Control Area.

If you wish to be notified of the decision of the Town of Halton Hills in respect of the Official Plan and Zoning By-law amendment applications, you must make a written request to

the Town of Halton Hills - PLANNING, DEVELOPMENT & SUSTAINABILITY DEPARTMENT at 1 Halton Hills Drive, Halton Hills, Ontario L7G 5G2.

NOTES:

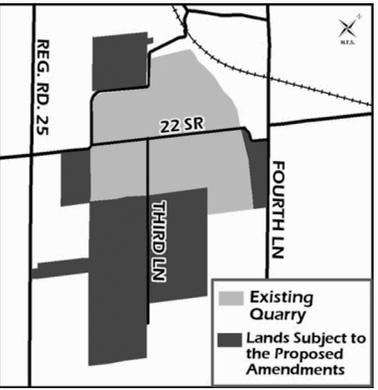

1. If a person or public body does not make oral submissions at a public meeting or make written submissions to the Town of Halton Hills before the proposed Official Plan and/or Zoning By-law amendments are adopted/ passed, the person or public body is not entitled to appeal the decision of the Town of Halton Hills to the Ontario Municipal Board.
2.
