

Old Beach safe

The most recent results of water quality tests at the Old Beach in Prospect Park showed it was safe for swimming. Halton's Health

Department monitors the water quality at public beaches throughout the Region, and for the most recent information, the Health Department

recommends that residents visit Halton Region's website halton.ca/beaches before visiting Halton beaches. Along with the Old

Beach, water monitoring on June 26 revealed the following beaches are safe for swimming:

- Milton - Kelso Conservation Area
- Oakville - Coronation Park East, Coronation Park West, Bronte Park Beach
- Burlington -

Beachway Park North
The following beaches are unsafe for swimming:
• Burlington - Beachway Park South
Residents can also call Halton Region to find out which beaches have been posted as safe or unsafe for swimming due to poor water quality.

Beach water quality information is available 24 hours a day by dialling 311 or toll free 1-866-442-5866.
During regular business hours ask for beach information, and after regular business hours press two for health information.
