## Library Notes

Acton Branch Halton Hills Public Library

By Vicki Firth

There's a place where you can be on the leading edge of technology or find a spot for peace and solitude. The library offers you the best of the new and the traditional: a true marriage of technology and knowledge.

At the library, you'll get a warm welcome from the staff and find the familiar shelves of books, magazines, DVDs, and music that have always found a home within our doors. Kick back in a comfy chair overlooking the creek or near the fireplace or retreat to a quiet study room. Trained staff can help you discover the next great read as well as guide your research or information gathering.

Along with the resources we offer here, we also provide services and partner with other organiza-

tions in the community. For many years we have provided children's programs with other centres in Halton Hills, such as at The Hub in Acton. We are now working with our friends at the Acton Seniors' Recreation Centre to provide a program called Coffee, Books and Computers beginning

September 25 at the Seniors Centre.

Similar to the Coffee, Books and Conversation (CBC) program we have held for many years at both the library and, more recently, at the Seniors Centre, this autumn the program resumes with the inclusion of a bit of technology. Participants will be able to hear about the latest books, and also ask any general com-

puter questions and get some basic tips. The Seniors Centre will have laptops available for participants to use, refreshments will be served, there will be time for socializing, and, as always, great conversations about books, technology and what's happening at the library. Upcoming dates for Coffee, Books and Computers are September 24, October 30 and November 27 at the Acton Seniors Recreation Centre, from 2-3:30 p.m. There is no charge for this program and everyone is welcome; you do not need to be a member of the Seniors Centre to attend.

Those who have computer questions but can not attend the CBC program, or who wish to hear about different technologies such as eBooks, social networking and online resources can also come out to the library's Technology Made Simple program, held the second Friday of every month at the Acton Branch Library from 2 to 4 p.m. There's a short presentation on a different technology topic each month. You are welcome to drop-in for some computer help or hands-on time trying out a variety of devices such as eBook readers or iPads.
