Building Maintenance Operator III

This is an opportunity for you to oversee all aspects of mechanical, electrical and fire protection equipment in the building. Monitoring temperatures, humidities, pressures, voltages, etc., regular checking of air handling units, operation of refrigeration compressors will call for your ability to handle ongoing preventive maintenance (greasing, oil changes, belts, bearings and filter replacement, maintaining chemical in cooling tower and cleaning of humidifying equipment). You will be adjusting electro-pneumatic and other control systems as required, and where certain malfunctions have been identified, you will be called upon to supervise custodians and contractors.

To be successful in this position, you need five years of directly related experience with building environmental systems and services. Mechanical technology, environmental systems and building services are courses which you studied at community college and you are certified as a 2nd Class Stationary Engineer or have BOMA certification. Your salary will be \$26,165, progressing to \$31,304.

Qualified candidates are asked to submit a resume, quoting Competition # Admin 4-89 post-marked no later than February 17, 1989, to:

Mary Warren,
Human Resources,
1151 Bronte Road,
Oakville, Ontario L6J 1E6

PROCESS MONITORING TECHNICIAN
