

Members of POWER got together recently to sort through some of the merchandise they will be offering at the upcoming Giant Garage Sale, Saturday, April 28 at the Halton Hills Works Yard on Trafalgar Road, just north of Maple Ave. The sale will offer something for everyone including toys, furniture and appliances. Checking out the goods

are from left, Harvey Kirkwood, Paul Dods, 3, Marsha Batchelor, POWER garage sale coordinator and Katie Banks and Andrea Break, both four, who decided to see what the selection of dolls and stuffed animals was like.

POWER prepares for Giant Garage Sale

Ontario's largest garage sale is back, Saturday, April 28, 10 a.m. to 4 p.m., at the Public Works Garage in Georgetown, Trafalgar Road, north of Maple and south of Hwy. 7.

The Halton Hills citizens' group, P.O.W.E.R. (Protect Our Water and Environmental Resources), says every dollar is needed to stop a landfill proposed for the Acton Quarry in the Niagara Escarpment. Reclamation Systems Inc. plans to bring garbage from anywhere in Ontario to this protected area.

P.O.W.E.R. members are already picking up and storing items for the day of the sale. Last year P.O.W.E.R. had an overwhelming response from citizens donating items, and from citizens shopping for bargains.

Priced on an Everything Must Go basis makes this sale the bargain hunters dream. Hot dogs, coffee and baked goods are also available.

Little three year old Paul Dods found his pick of the toys mixed in amongst the goods. A little piano was just the ticket for a musical Paul.

One per cent milk soon on market

Ontario's dairy product market will soon be introducing one per cent milk to the consumers.

The Ontario Farm Products Marketing Commission has filed regulations which will become effective April 30 permitting the sale of one per cent milk.

The Ontario Milk Marketing Board (OMMB) responded to a hearing called by the Commission in late February to present its proposal for two new classes for fluid milk - one per cent and skim. This would give a total of three fluid milk classes.

Milk from Ontario farms averages about 3.9 per cent butterfat and when milk is standardized to make homogenized (3.25%), 2%, 1% or skim milk (0.1%), the skimmed off butterfat displaces industrial milk production and reduces the overall size of the market. This effectively reduces producer income and that's why the Board wants new classes to offset those losses and to maintain producer income.

New classes for skim and one per cent would give the OMMB the opportunity to set different prices within the fluid market. Milk going into these two classes will have more value to processors because the skim-off cream can be used to make other products.

Fire briefs

Grass fire

A small grass fire was started by someone burning garbage Tuesday afternoon on the 10th Line, north of 10 Sdrd., according to the fire department. No damage was reported.

False alarm

A fire alarm was activated at the Bell Telephone building on Main St. in Georgetown Tuesday evening. The cause of the alarm is unknown, according to the fire department.

Smoking light

Firefighters responded to Georgetown and District Memorial Hospital Tuesday night after a faulty ceiling light began smoking. No damage or injuries were reported.
