

Wet weather hampers soccer match

By ALEX TOUGH

Canada was defeated by Mexico in the falling rain in Ottawa on the weekend - did you see any of the game on TSN? I only caught the end and if not for the fact that this was an international event the game would have been postponed. This is likely to be the

main player squad of the near future and the next World Cup. The poor conditions were not to the Mexican players' liking and resulted in several bookings for them. The referee had a difficult task and the home players showed good restraint.

CSL announced that Ottawa

Intrepid would be taken over by the league until the end of the season, financially that is, as the club is in difficulty. The players have taken a pay cut to see the remainder of the season out. There is a great danger that the team will fold unless new ownership takes over and saves the day.

Winnipeg in third place. Steelers have conceded 30 goals so far, and this alone will make it hard for them to reach their third consecutive final.

Georgetown's Falcons had a couple of heartbreakers recently losing 2-1 and 3-2. The 3-2 loss was to league leading Mississauga Classic and the winning goal came with only three minutes to go following a defensive lapse. The team has still had a good season and there is a little way to go yet.

Well, Mariners' effort to escape relegation came to an end with poor defense against Meteor. The 5-3 score reflects the play. However, late goals from the Mariners made the score look better. Close rivals, Villa, showed fighting spirit against Eagles. A late, late equalizer means Villa gained the one point they required for safety. The bottom places in each division are now settled. Along with Mariners, Trexcon finish bottom of the second division.

Meanwhile, the Meteor win

sets up the final league game at Crown. By the league tie breaker, and my reckoning, Meteor needs a tie and Crown needs a win. Should be a great game. Missing a result or two means the position with Marlin and Merseyside at the top of the second division is uncertain. By coincidence these two also meet this week and will decide the title. Then it is the playoffs, with all teams taking part in a round robin first, then section winners and runnersup going into knockout.

At the moment United are in sixth place in the ladies league just ahead of Oakville and Acton with the other two Town teams safely in the bottom half of the league. United will be looking to maintain its placing at least as the club will play a lower rated team when it comes to playoffs. The other two local teams and Acton are set to play teams in the higher half of the league.

Only two Inter County games were in town, Wednesday. Ajax vs Milton, and United vs Eagles.

Dart league teams set to open season

By ALEX TOUGH

The Wednesday Industrial League, hosted by the Georgetown Legion, commences play Wednesday. A change for this year is a minimum number of players is a requirement. At the moment 16 teams look to start the season, in two divisions of eight. If so, the league will play all games downstairs. Should there be more teams play may be split between upstairs and downstairs as in the previous year or two or three. Judging by the turnout at the captains' meeting 16 looks like the total.

The Monday night Halton League, played out of several bars around town begins Sept. 10. Team registration deadline was Aug. 24. Any team missing a regular meeting will be docked three points and possibly other measures if consistently missing. Late notified results and team sheet delivery will also be subject to a three point deduction. Teams will not be able to transfer any players after Sept. 28. The format remains,

eight singles, four doubles and two four person team games. The registration fee is the same as last season, player \$35; team/bar \$125.

Schedules will be handed out at the first regular meeting. This is set for 8 p.m. at McGibbon on Sept. 4. At the moment teams are likely to come from Time Out, O'Tooles, McGibbon, Copper Kettle and Station House all returning from last year. Hollywood make a welcome return after absence last season and new entry - George Dragon. Teams total 12 with a possible further four making up the roster.

Incidentally a 12-person team tourney is set for the Skyline Sept. 14-16. Discounted rooms are available for darters within Darts Ontario. Entries are for ladies teams and mixed teams in separate competition and may be entered on the basis of one set of each from any division in the qualifying leagues.

Start practising your throwing arms now lads and lasses.

In the meantime, play goes on. In the East Blizzard and Montreal Supra have qualified for the end of season playoffs, with Steelers lying third and still trying. Vancouver, in the West, is way ahead of the rest; 11 points in front of fellow qualifiers, Victoria, with

AAA tryouts

Smashing return

Acton's Jason Pun makes the return here during recent action at the national junior tennis championships held in Milton. Pun ran into difficulty in this match, eventually dropping it to the tournament's top seed. However further details weren't available.
