It's a 10: Edward Scissorhands is a cut above

It must be hard being Tim Burton. The visionary director has brought to the screen the most inventive and dazzling films in recent history: Pee Wee's Big Adventure, Beetlejuice, Batman and now Edward Scissorhands. The surreal framework and eccentric characters of his films are unprecedented and show a true

artist who paints a canvas whirling with the flipside of cultural images.

And people automatically expect that level of magic whenever he's attached to a project. So how can he consistently top himself? How ingenious can you be before you lose that touch? Well it's an unbelievable feat, but Bur-

The Alzeimer Society for Hal-

ton-Wentworth will hold an open

house at the resource centre on

Thursday, Jan. 3 between 10 a.m.

and 2 p.m. This marks the begin-

ning of Alzheimer Awareness

Month in January. The resource

centre is at 875 Main St. W., Lower

ton has proven himself as wunderkind once again with Edward Scissorhands. It's sheer brilliance.

The story, an updated fairytale of extraordinarily bizarre proportions, juxtaposes a time-warp suburbia with a gothic monstrosity and the result is one of the best films of the year. Johnny Depp plays the title character of Edward, the synthesized creation of a scholarly inventor, played by Vincent Price. However the untimely death of the inventor leaves Edward unfinished and stuck with sharp shears of metal for hands. Unable to fit into society, Edward remains trapped in his own little world high atop a

hill. When an inquisitive Avon Lady, played by Dianne Wiest, discovers Edward's mansion hideout, she brings him home and introduces him to civilization and the resulting tidal wave of culture shock. Winona Ryder (Depp's real-life girlfriend) plays Kim, Wiest's daughter, who falls in love with Scissorboy and becomes his only ally.

I haven't been so moved by a film in such a long time, as much as I was by Edward Scissorhands. It's so utterly charming, unassuming and completely original. The sincerity of the film combined with the fantastic wizardry make it the most compelling and engrossing film to come our way in a long time. And the performance by Depp is truly mesmerizing. Limited by the character's awkward physical movements, Depp's face and eyes do the talk-

ing and it's a brilliant piece of expression. He's like an old silent movie actor.

Edward Scissorhands is a wonder to behold. Definitely the future of visionary filmmaking rests in Tim Burton's hands.

Out of ten, Edward Scissorhands rates a ten.
