Georgetown

North Halton District Scouts held their annual Winter Camp at Terra Cotta recently. The highlight of the weekend was ice fishing with three different types of tip-ups. Don Jones and Rob Harrison had all of the latest equipment plus a hut. Troop Scouter Ron Birrell also instructed on water boiling. The Scouters earned their silver stage Conservation Badge and Winter Scouting Badge. A.D. C. Steve Thompson was Camp Chief.

### Halton residents urged to take part in review

On January 25, 1991, a series of advertisements in Halton papers invited the public to participate in the review of Regional government in Halton.

This is the first major review of the Regional government since its establishment in 1974. "We are not re-visiting the question of whether there should be Regional government in Halton; that decision was made in 1974," said Councillor Joyce Savoline, chairman of the Regional Review Committee. "We are re-examining matters, such as how the Regional Chairman is elected and whether the number and distribution of Council seats provides fair and adequate representation throughout Halton."

Halton residents can provide input to the review process in a couple of ways. A Regional review questionnaire is available and written submissions to the committee are also welcome.

The questionnaire focuses on three major topics. Regional Council is the subject of the first section, with questions addressing the size and composition of Council and the distribution of seats within the Region. The second section concerns the position of the Regional Chairman, particularly the options for electing the Chairman. The final series of questions relates to the role and responsibilities of the Regional Councillors.

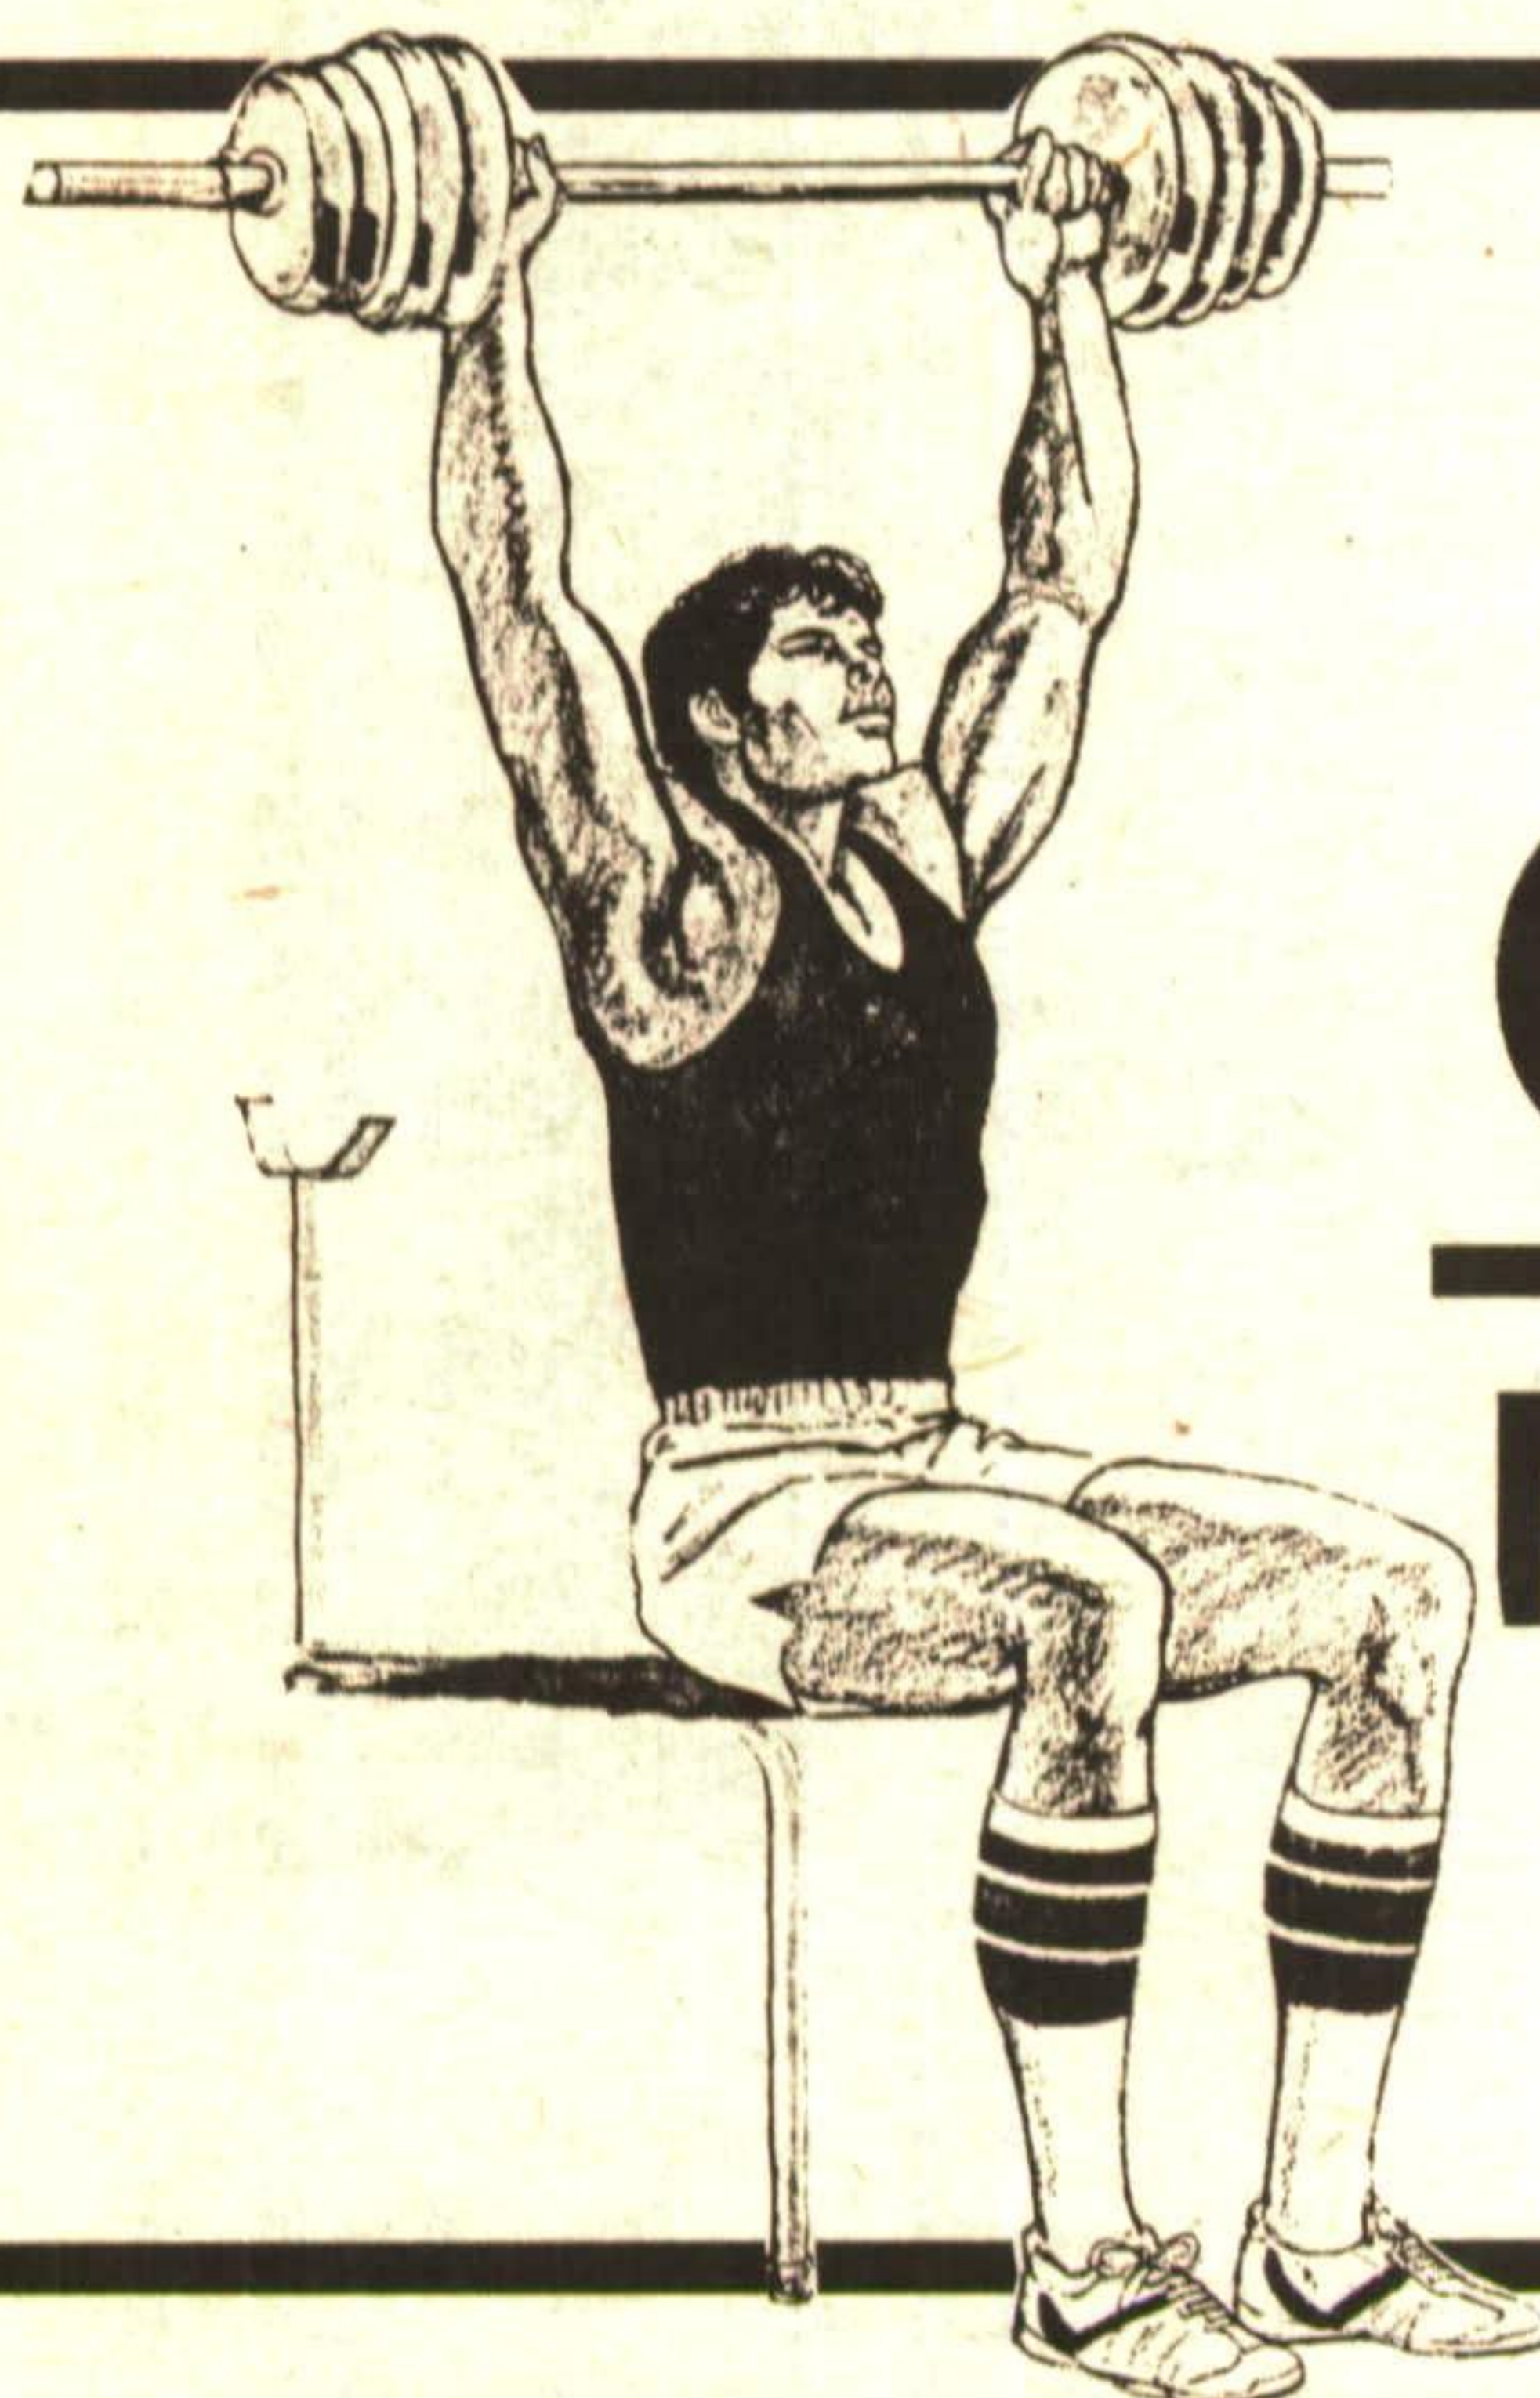

"The questionnaire is brief, only 13 questions, with enough space for additional comments," said Savoline. Public input will be considered along with other sources of information as the Committee considers the issues.

The second phase of the Regional Review process will concentrate on the distribution of responsibilities between the area municipalities and the Region. Although the questionnaire does not address this issue, comments are welcomed on this topic also.

Written submissions and/or questionnaires should be received by March 1, 1991 in order for the Committee to complete the first phase of its review by the end of June.

Questionnaires may be obtained by calling Halton Region at 827-2151, ext. 476. The number for calls for Halton Hills/Georgetown is 878-8113; and for Halton Hills/Acton is 853-0501.

Completed questionnaires and/or submissions should be sent to Halton Regional Review Committee, Region of Halton, P.O. Box 7000, 1151 Bronte Road, Oakville, Ontario L6J 6E1.

Work That Body

#### Faulty sprinkler

A broken sprinkler pipe activated the alarm and flooded part of Loblaws, located on Guelph St. in Georgetown, early Saturday morning, according to the Fire Department. Firefighters assisted staff in the clean up of the water.

#### Another false alarm

Firefighters responded yet again to what seems like a weekly occurrence to another false alarm at the Lakeview Seniors' Villa on Elizabeth Dr. in Acton Sunday afternoon. A fault in the system is the suspected cause, according to the Fire Department.

#### Medical assist

Firefighters were called to a

#### Fire briefs

Nelson Ct. residence Sunday afternoon to help a child who had difficulty breathing. They administered oxygen until the ambulance arrived, according to the Fire Department.

#### Chimney fire

A small chimney fire ignited early Sunday evening at a residence located on the Town Line south of 20 Sdrd. The fire had extinguished itself before firefighters arrived. The owners were advised to have the chimney cleaned before using it again, according to the Fire Department.
