## Home Week celebration

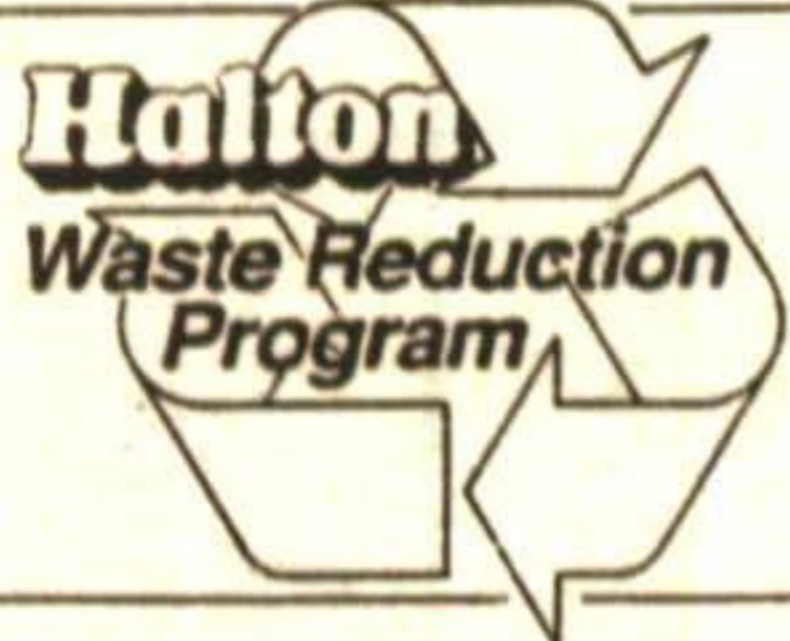

The benefits of home ownership will be celebrated during Ontario Home Week, September 22 to 28. The week is sponsored by the Ontario Real Estate Association in conjunction with local real estate boards.

"There are many benefits to owning a home," said Tom Bosley, association president. "A home certainly provides shelter, but it also provides a central focus for our lives and our families."

An often overlooked benefit to home ownership is the return on investment it brings. According to a study by two professors at the University of Western Ontario, home ownership has been a better investment over the past 30 years than other popular investments such as T-bills, stocks, government bonds or gold.

"The study reinforces what long-term home owners have known all along," said Bosley, "that buying a house is the best investment a family or individual can make."

The Ontario Real Estate Association represents 45,000 real estate brokers and sales people and 48 local real estate boards in Ontario.
