

Obituary

Cylvia Brain was an active Rockwood businesswoman

BY KAY WILSON

Special to the Halton Hills Weekend

Sincere sympathy is extended to the Brain family, former Norval neighbors on the Ninth Line. Cylvia Brain passed away

on April 21 at St. Joseph's Hospital, Guelph, following a short illness.

Beloved wife of William, RR3 Rockwood, loving mother of Greg and his wife Connie. Dear niece of

Bessie Edwards of Belfast, Ireland.

The Brain family is an old family name in the Norval area, however they sold their farm 20 some years ago and moved to the Rockwood area, where they continued in the dairy business and Holstein cattle.

Cylvia was born and brought up in Belfast, Northern Ireland and along with a girlfriend came over to Toronto. Cylvia was a gracious hostess and along with her liling Irish brogue, caught the attention of her many friends and neighbors.

Cylvia coached the Norval Junior Farmers Drama Club to many wins some years ago. Following their move to Rockwood she went into real estate, and was a successful sales agent.

Cylvia was a proud and happy mother, who along with her loving husband Bill, of 30 years, attended their son Greg's February 8 wedding to Connie Dixon, even though her health was not good.

Funeral service was from the Shoemaker's Funeral Home, Acton on April 24. Canon J. E. Maxwell conducted the service. Interment was in the family plot at St. Stephen's Cemetery, Hornby.

Pallbearers were Ross Brown, Murray Williamson, Jeff McNabb, John Benham, John Bloss, Fred McDougall.

Remembrances may be made to St. Stephen's Cemetery, St. Joseph's Building Fund, or the Canadian Cancer Society.

MOWING YOUR LAWN

The appearance and health of your lawn is maintained by mowing your lawn at the proper height. A common, very serious error is to mow lawns too short!

A lawn should always be mowed at least 5 to 6 cm (2 to 2 1/2 inches) above the ground. Mowing height should be increased during the heat of summer. Grasses require the longer cut to survive the summer heat and drought.

The lawn should be mowed frequently so that only a small clipping is taken from the grass plant. Never remove more than 1/3 of the total grass blade when mowing.

Mower blades should be kept razor sharp. This sharp cut will make a clean wound that will heal quickly, look tidy and resist disease attack. It may be necessary to have mower blades sharpened 2-3 times yearly. Ideally, the best time to mow your lawn is early morning.
