

4-Her enthusiastic about leadership camp experience

By JEN PAGE

Special to the Halton Hills Weekend

I just recently returned from a 4-H leadership camp and I am bursting to relate my experience.

When I first went I was apprehensive and more than a little worried, just how much did I know about this camp anyhow? As I later learned, I was taking a risk, and it was a risk that changed my life for the better. It made me more complete and confident as a person.

There were 91 other 4-Hers in attendance all between the ages of 16 to 21, and all of them strangers, or so I thought. Later I learned that there are no strangers just friends we haven't met yet, and, boy, was that true.

I spent six days with these people, we worked together, learned together, laughed, argued and even

cried together. In six days I made a whole new family. I wasn't afraid to approach anyone and start a conversation or just give them a hug of friendship.

4-H provided me with a place to learn my leadership qualities and different ways to use them, a place to learn new ideas and take risks, and a place to gain everlasting friendships and unforgettable memories.

If you are in 4-H and haven't seized this incredible opportunity, go for it and don't stand back. If you do you will miss out on a special, once in a lifetime chance.

For those not in 4-H, it's not too late to join and become part of this big family of opportunities. I know out of the little amount of time I've been a member, I have gained so much.

DENTURES- "SORE SPOTS"

The main reason for having sore spots is illfitting dentures. Your mouth is constantly changing and your gums are constantly changing and your gums are constantly shrinking. Also, denture wear causes discomfort. It is always important to note that an illfitting denture does not have to be a worn out "old" denture. It is possible to have new denture that is illfitting, but for many different reasons. It might not have been made right from the start.

OTHER REASONS FOR HAVING SORE SPOTS

As you get older, your body goes through many changes. Tissue can become more sensitive to pressure which can cause irritation.

Medication can give you a "dry mouth". This makes it more difficult for the denture to suction to the roof of your mouth. It also can cause rubbing which causes sore spots.

If you have recently lost weight, your gums also become smaller. This can also cause sore spots.

If you are having trouble with sore spots, contact your local denture therapist.

THE BAHAI FAITH FROM A-Z

INVESTIGATION

The most important thing in our lives is our relationship with God. To search and find Him is the right and responsibility of each individual. No one's faith is conditioned by any other's. There must be no coercion in the matter of religion.

Sponsored by the Baha'is of Halton Hills, 878-6138
