What is a Home Theatre?

A Home Theatre can be as basic as a 21" T.V. hooked up to a simple, 2 speaker stereo system. A Home Theatre can also be - as complex as a 12 foot projection screen enhanced in correlation with T.H.X. (George Lucas - "Star Wars" technology), a 5 to infinite number of speaker audio system. A home theatre is either one of these systems. OR various other audio/video components, will endow you with the Home Theatre you must explore in your very own "Viewing Room". The potentialities are countless!!! A coveted fantasy just a few years ago, is a reality today. That is what we term "Super Magic"! What do you require to obtain what Doug and Emma fondly term - "Mega Magic"? You must indulge first, in what "Dinny", Brian Dinsdale, one of the founding forefathers of the Canadian Home Satellite industry, terms - "The Magic"!

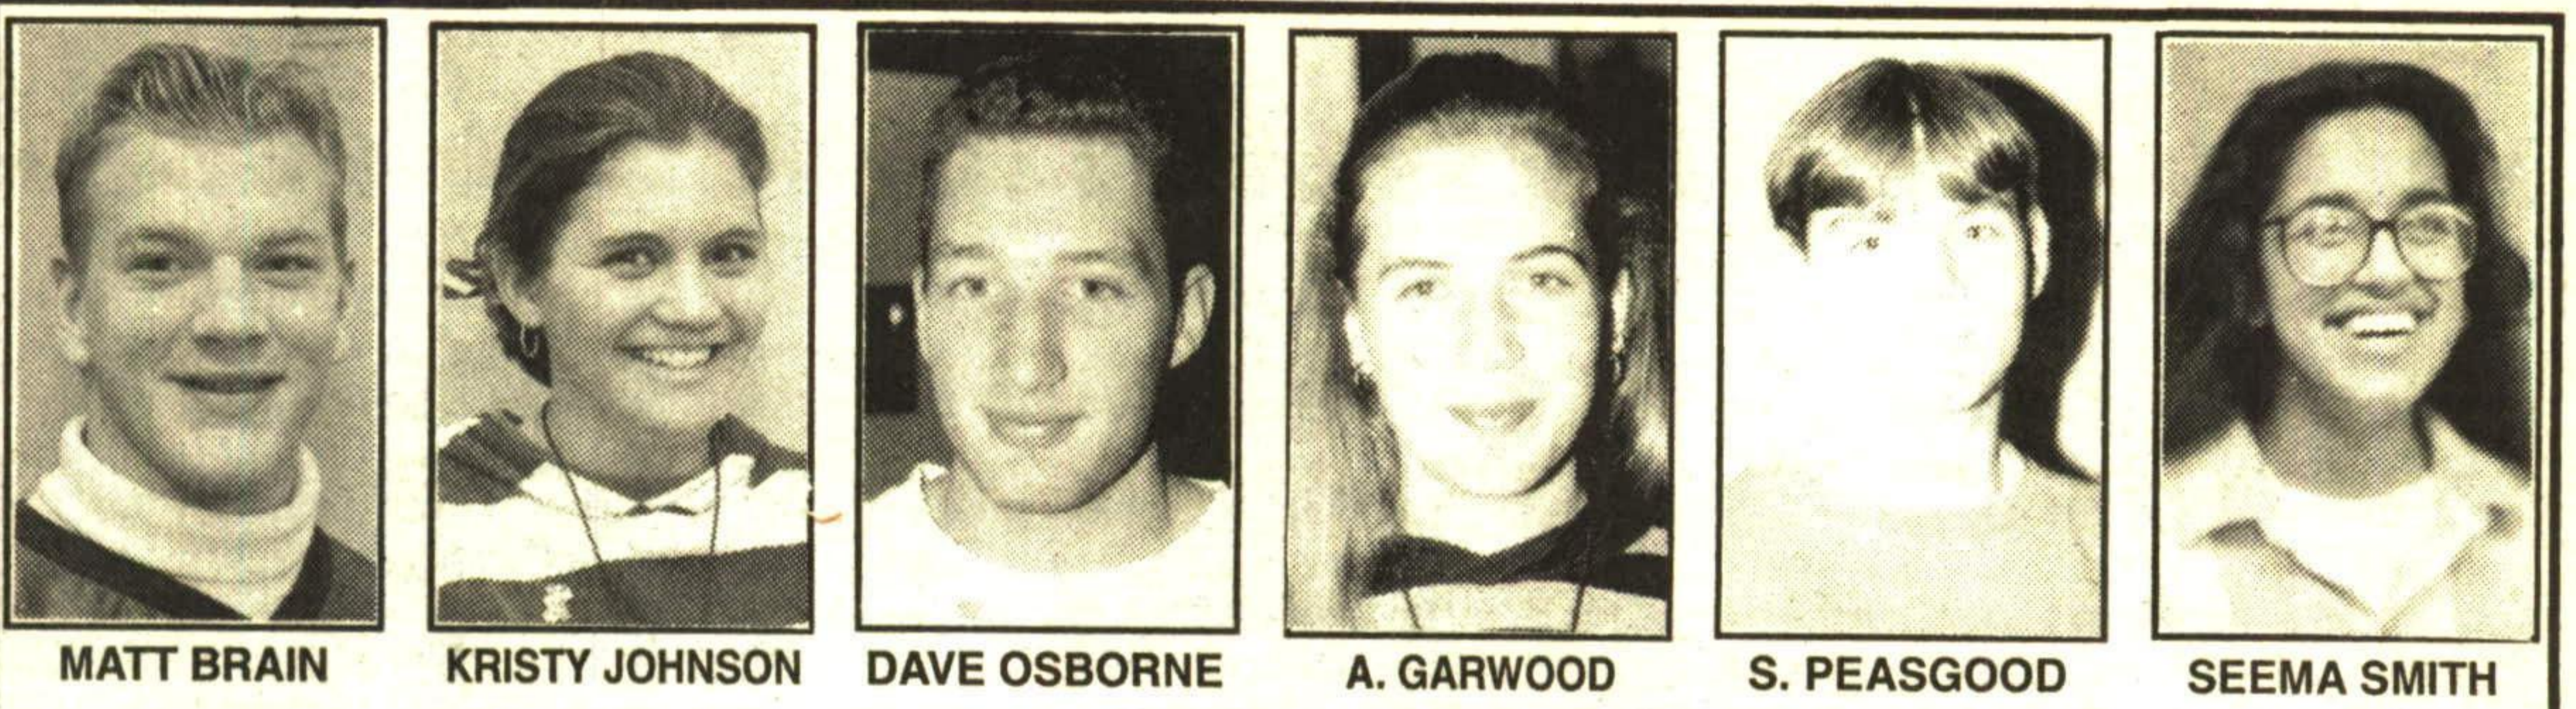

What is "The Magic" you ask?

It is the only audio/video source capable of originating "Mega Magic". It is an earth station, a T.V.R.O., quite simply put, it is a satellite receiving system! And, you wish to enquire as to how much "Mega Magic" costs? Your investment can be as "little" as a good basic satellite receiving system, coupled with a basic, 2 speaker stereo system, "Mega Magic" can be a combination of any audio/video components, merged with any satellite receiving system.

What is our opinion of a system that truly manifests "Mega Magic"?

A good satellite receiving system PLUS a mid-fi "quality" audio/video system. Your choice is absolute!!! Your budget is your guide!!!

NEXT WEEK: What free programming, may I view with a basic satellite system?
