## INTELLIGENT INVESTING

## A UNIQUE INVESTMENT OPPORTUNITY

Due to the incredible response I have received from investors on the "Working Ventures Canadian Fund" I've decided to repeat last week's article.

Recently I have had many inquiries from investors about a unique investment opportunity. The investment is called "Working Ventures Canadian Fund". This is how it works. According to the brochure published by Working Ventures Canadian Fund Inc., "new income tax legislation provides two 20% tax credits for investment in labour-sponsored investment funds. Working Ventures Canadian Fund is Canada's first national labour-sponsored investment fund, sponsored by the Canadian Federation of Labour."

It goes on to say "Investors in Working Ventures receive RRSP deductibility plus a 20% federal tax credit and a 20% provincial tax credit on the first \$5,000 of shares purchased each year. In all, you can claim 40% in tax credits plus your regular RRSP tax deduction."

"Your investment in Working Ventures will primarily be reinvested in promising, growth-oriented businesses in your province. It is the small and medium-size business sector of the economy that has historically created the majority of Canada's new employment opportunities." "While saving taxes, and contributing to economic growth are important, it's essential that your investment performs. Working Ventures' objective is to produce the superior returns traditionally associated with investment in dynamic and growing businesses, while minimizing risk through prudent development and management of the fund."

If you have questions on Working Ventures or any other investments please contact me.

## YOU ARE INVITED

### To Attend a PUBLIC INFORMATION CENTRE

The Regional Municipality of Halton  
Class EA for Additional  
Waste Water Trunk Capacity

**WHAT:**

The Regional Municipality of Halton, Public Works Department, invites you to attend a Public Information Centre on the Class Environmental Assessment for Additional Waste Water Trunk Capacity to service Georgetown.

After a review of the alternatives, it has been identified that to serve the planned Georgetown community of 40,000 people, additional waste water trunk sewer capacity will be necessary.

We will present for your comments the evaluation of alternative ways of supplying this additional capacity as well as four alternative concepts for the trunk sewer locations, some of which include a new sewer in the Silver Creek & Black Creek Valley. WE NEED TO HEAR YOUR CONCERNS about these alternatives. There will be visual displays and staff to answer your questions.

**WHEN:**

Monday, February 1, 1993 from 4 p.m. to 9 p.m.

**WHERE:**

Town of Halton Hills, Civic Centre
