

Who is the Government?

Dear editor:

Who is the "Government" For God's sake and for the sake of our children, grandchildren and all who are to follow us, may I point out who the government of this province and country are supposed to be?

The people! What an astounding revelation that in a democracy "We" the "People" are the people in charge. The people of Britain assured this by forcing King John to sign the Magna Carta, allowing the people freedom of choice. Our neighbors south of the 49th parallel (The United States) wrote in their constitution "of the people, by the people and for the people" and they demand these rights.

We, in our province, and in our Dominion, allow our politicians to use us, bewilder us and use such abstract statements as were outlined in Noel Duignan's Queen's Park report of February 17, "Our government," increased capital expenditure by 20 per cent - while incurring a 14 billion dollar deficit. Whose money are they spending? Certainly not their own or they would be more careful of it. These politicians would have us believe they have a "money machine" and they only have to crank up the presses and print more so they can then spend more!

Young people of Ontario and Canada, I urge you to spend

some of your time and learn what government in this great country of ours is all about. Don't let the politicians and bureaucrats snow you under with glib phraseology.

Make them accountable to you at all times, not just during election years.

Stand up and be counted, or you will pay a heavy price, today and in the future.

Yours very truly,
A.C. Irving

Beyond the call

Dear editor:

Two weeks ago my truck ran out of gas on Hwy. 25 and I had to walk to the Speyside store.

When I explained my problem the girls who were managing the store couldn't have been more helpful. They first filled a tank of gas, put it in their car and then drove me to my own truck.

When we arrived they, without any questions asked, proceeded to fill the tank with gas. They then waited to see if the truck would start and offered to follow behind to make sure everything was all right.

I feel that they went well above and beyond the call of duty. Without this good samaritan action I would have been unable to be home in time for my children when they arrived from school. The Speyside store has just recently changed ownership. I'm sure with this type of customer service they should be around for a long time.

Thanks for caring.
Rita Landry,

Letters

to the Editor

Save the animals

Dear editor:

Hi! My name is Bryan Smith. I have a complaint.

People have been killing animals. My complaint is, what have the animals done? Why are they killing for no reason. Buffalos are almost extinct. Well, goodbye and thank you.

Sincerely,
Bryan, Grade 3,
Harrison School

Grateful thanks

Dear editor:

My main reason for this letter is to give praise where it is definitely due. I would like to thank the Georgetown Volunteer Firefighters, headed by their captain, John Murray, who attended at my home, 4 Beaver Street, Glen Williams, on Friday, February 5, 1993 in response to a 911 call that my house was on fire.

They were extremely caring and helpful to me (this was a very traumatic experience - which I would not want to go through again) - they were thorough with their work and investigations and thanks to their efficiency, I did not lose anything personal. Whatever was ruined was replaceable. People are so ready to criticize when things go wrong, but rarely do they give praise to a job well

done. Thank you guys. You were great.

The praise continues. Envirobuild Inc. worked on the restoration of my home and have done a wonderful job. Once they took over the contract, they took over my worries (and that's something I do very well!). We communicated very well and I do not have one complaint, everything moved smoothly, efficiently and very professionally. Envirobuild Inc. is a Georgetown company, a young team, headed by Brian, Glenn and Chris. Thank you, my house looks wonderful.

Last but not least, my thanks to Carl and Denise, who were there for me all the time, from beginning to end.

Without all you wonderful people my trauma would have been a horrifying nightmare, but you were all there. Thank you again.

Joan Blight
