EQUITY MUTUAL FUNDS ON THE MOVE

More and more of the economic evidence is serving to verify the fact that not only has the recession ended, but that the recovery is gaining speed. Typically, when this happens, investors in equity mutual funds are well rewarded. A strong case in point are the equity funds managed by Mackenzie Financial Corporation. In fact, history has shown that Mackenzie's Industrial Group of Fund may be one of the best leading indicators available.

Mackenzie managed funds are performing well above the TSE 300 Index in recent months. This pattern is similar to those exhibited during previous recoveries. The largest gains have been in Universal Natural Resource Fund (up 50.1% December 1, 1992 to March 15, 1993) and Industrial Equity Fund (up 33.9% over the same period), which are capturing the gains in smaller resource companies that accompany early recovery stages. The larger funds in the group, such as Industrial Horizon Fund (up 12.2%) and Industrial Growth Fund (up 17.0%), are showing strong movement relative to market, and are benefiting from a patient and disciplined restructuring to producer stocks over several years. While this restructuring came at the price of short-term performance, Mackenzie resisted pressure to deviate from their outlook - and this has started to pay dividends. Mackenzie has highlighted Natural Resources and Industrial Products as the leadership sectors for this recovery.

This may be the beginning of another period of strong performance in Canadian equity funds, and now is a good time to invest if you are not already participating.

A human individual is more than a material being. The most important things in life are intangible, like love, understanding, justice, encouragement, respect. These are spiritual qualities we each possess, and it is the purpose of life to strengthen and nurture them. Sponsored by the Baha'is of Halton Hills, 878-6138

ALL WELCOME

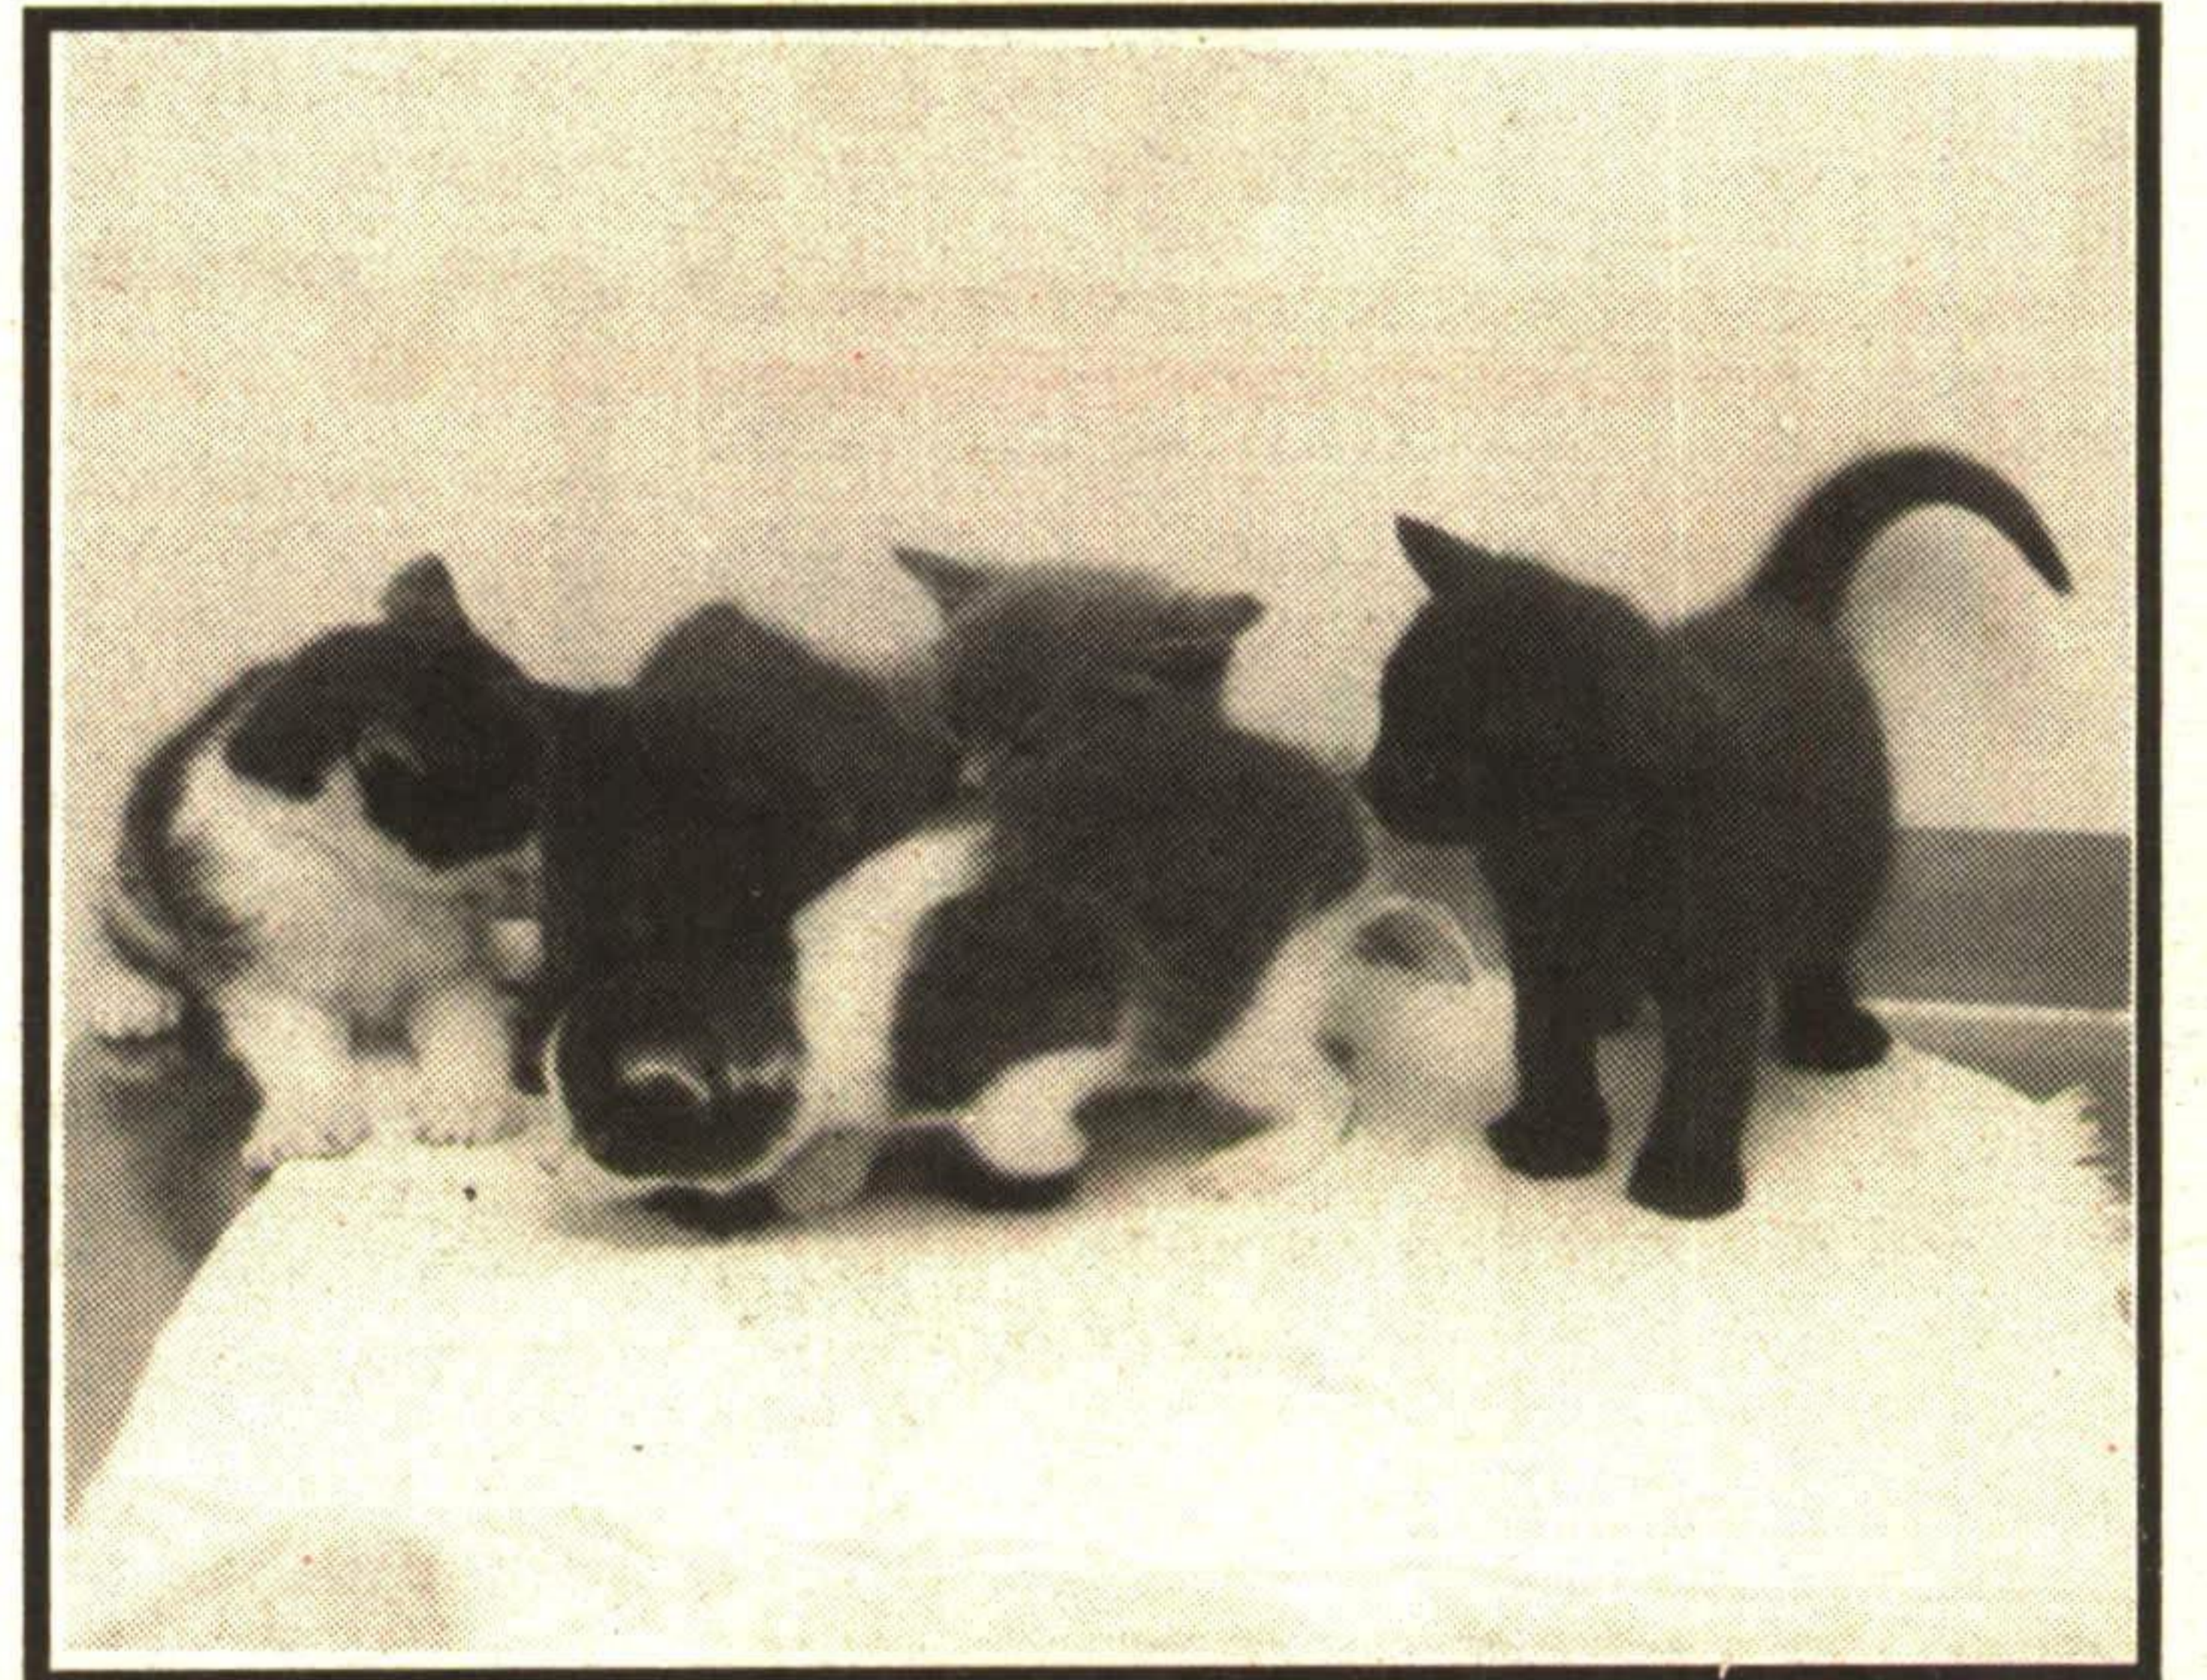

During the Friday's fashion show (April 2) at Georgetown Marketplace Mall, an unexpected visitor dropped by to add to the show. The Easter Bunny was a welcome addition to the first fashion show in which 10 stores in the mall participated. The show also ran Saturday, and is expected to be organized twice a year in the mall.
