Start your projects with help from the experts

Your present home represents a big investment — perhaps the largest of your lifetime. Safeguard and, at the same time, update your property with careful planning of both improvements and ease of maintenance. In this way you protect and extend both the comforts and the economic life of your big investment — the home that you own.

Properly maintained and improved for better living, your home is likely to increase in value as time goes on, by more than the cost of the improvements. At the very least, its value will be maintained.

Responsible home improvement contractors are ready to assist you in making prudent decisions commensurate with your enjoyment and better living.

List your needs — Look over your property carefully. Decide what repairs are imperative, what improvements and conveniences are most needed or desirable for your enjoyment and better living.

When adding or converting rooms, first and foremost, make a list of the activities for which a room will be used. Wherever possible, a room doubles its effectiveness when it can be used flexibly. For example, an adult bedroom

ought to provide a quiet retreat for reading, sewing or relaxing. A dining room could certainly also serve as a second sitting room, a music room or library.

Think, too, of the mood you wish to express — should it be formal or informal, a quiet background for people, or a strong reflection of your personality? Then you are ready to draw your simple floor plan using graph paper, and patterns of your furniture cut to scale. In laying out your room arrangements, keep in mind open traffic areas, a center of interest, conversation groupings, storage space and adequate lighting. For practical, time- and money-saving hints be sure to consult your contractor.

The role of the lending institution — If you wish to pay cash for your home improvement project, by all means, do so.

However, various financing plans are readily available in convenient monthly payments to property owners with steady incomes or established assets (for instance, a sizable equity in the property to be improved, or other recognized investments).

Your responsible home improvement contractor is prepared to help you arrange the financing you need with established lending institutions in your community.
