

Joanne Hotton holds one of the new Trisha Romance figurines available at the local Trio Mart.

## Trio Mart offering Romance figurines

Trio Mart, located in Moore Park Plaza is proud to introduce a line of Trisha Romance figurines. They hold the exclusive rights in this area to sell this exciting new product.

Six of Trisha's paintings have been transformed into magnificent limited edition figurines, featuring the winter activities of her son Nathan and young daughter Tanya. These figurines are selling in the \$80-\$100 range.

"Trio did have a bit of a struggle last year," says Joanne Hotton, the store owner, "but we are trying very hard to change with the times and hopefully bringing out the new line of Trisha Romance figurines will be of interest to our customers and bring them out to the store so they can see just how much we really

have to offer."

Trio features a large selection of other gift items including gift baskets, porcelain dolls, calico kittens, precious moments accessories and all kinds of collectibles.

They also have many of the practical items that customers need like groceries, hair care products, a large selection of pet supplies and other household items. Something else that Trio Mart is known for is their "Dollar Dazzle" where all items sell for a dollar. They also have a wide selection of gift wrap and cards and most of their cards are half price.

Trio Mart is also equipped for the trick-or-treaters as there is a supply of candy, a variety of masks, make-up and other costume accessories.

## Prize winners

The Georgetown Branch of the Ontario Hooking Craft Guild wish to announce the winners of the prizes in the draw held at their recent Show and Sale at the Gallery, Georgetown Public Library. First prize - Dean

### NEW HOPE FOR LOWER DENTURES

Do you have trouble with your dentures? Does it move from side to side, or fly out of your mouth when you cough or sneeze? Do you have a flat lower ridge? Have you always had trouble wearing it for long periods? If you answered YES to any of these questions, you might want to look into the "MYOLOC WING SYSTEM".

The Myoloc System is still relatively new, now in use for just over 5 years. It consists of varying sizes of specially designed "Wings" that attach to your lower denture. They are small wing-like loop inserts, that are placed on the inside flange of the denture, where your tongue rests. It is completely unnoticeable in the mouth, as it is covered by the tongue. The tongue actually helps hold the denture in place as it rests on the wings.

This system can be inserted in the new dentures, or can also be placed in existing dentures, in the same length of time as it takes to do a simple repair. The cost of the insert is about the same as a standard relin.

Thousands of people across the country are already wearing dentures with the Myoloc Wing System. These people report greatly increased comfort, when compared to dentures without the insert. If you are interested in seeing a sample of the Myoloc Wings, or if you have any questions, don't hesitate to contact our office.
