

## BIRTH ANNOUNCEMENT

**Justine McIntyre**

My Mommy's co-workers (and my Aunt Lynda) felt I should be announced to the world (my Mommy has been too busy).

Hi! My name is Justine Victoria McIntyre and I was born at Guelph General Hospital at 4:15 on Wednesday, September 29 and I weighed in at 6 lbs. and 13 oz. approximately. I am a bundle of joy for Todd & Lori McIntyre (nee Vermeulen) and a new granddaughter for both Gloria & Jack Vermeulen and Doreen & Lloyd McIntyre.

My Mommy's co-workers would like to wish Todd, Lori and Justine a very Merry Christmas and many years of joy and happiness with their new addition and we hope there will be many more new additions to follow.

## Application approved

An application by Pio and Mary Civiero of Esquesing to amend a zoning bylaw was passed by Halton Hills council Monday.

The Civieros applied to amend the bylaw, in order to permit a home business use consisting of storage, repair and maintenance of equipment and vehicles and a mobile welding service to the rural community.

On site welding and repairs would be conducted within an existing garage located on the west side of Winston Churchill Boulevard, north of Five Sideroad.

In opposition to this application, neighboring resident Margaret Wigley addressed council Monday saying she has complained about the noise and various safety concerns of the business on numerous occasions, but has received little in the way of support from the town.

"When I complained about the noise I was told the situation should be resolved between us neighbors, but if I lodged a complaint every time I had one you'd have a list as long as your arm," explained

Wigley.

Along with the noise, she and other neighbors have raised several other concerns including possible decrease in property values, traffic concerns and violation of road restrictions.

In response to public concerns, Civiero advised the town's planning staff that "while his use of the property previously was of an industrial character, due to the neighbors' concerns the use will be strictly limited in the future to a home business which would be undertaken in conjunction with the existing residential use of the property."

He added that "this low intensity use would mean that employees would not undertake major welding or other general contracting activities on this site, instead employees will be conducting activities at work sites."

Planning Staff also received support for this proposal from the Ontario Federation of Agriculture, Butt's Berry Farm, Brandolea Farms, Rosegate Farms, Jim Lindsay Farms and Mr. Laidlaw.
