

Representing some of the local businesses participating in Heart and Stroke canvassing are (from left) Kerrie Kneitt of CIBC Marketplace Mall, Rick Ross, Bank of Montreal, Linda Brown, CIBC Main St., Joanne Hatcher, of McDonald's Restaurant (Georgetown) and Sheila Kirk, CIBC Marketplace Mall.

## Heart and Stroke canvassing in full swing

Area residents can expect a visit sometime between 6 and 8 p.m. Monday night from a Re/Max real estate agent canvassing for the Heart and Stroke Foundation of Ontario.

The Re/Max employees have canvassed for the charity for the past three years and this year have set their goal at \$1,500.

Employees from the Bank of Montreal, Canada Trust, the two CIBC branches, McDonalds Restaurant, and the Toronto Dominion Bank will be door-to-door canvassing in Georgetown as well this month.

On Tuesday (Feb. 22), the businesses participating in the blitz will return their kits and monies at the Park Public School gymnasium between 6:30 and

8:30 p.m. Anyone interested in obtaining information about heart disease and stroke is welcome to attend.

Another fundraiser for the Heart and Stroke Foundation is planned for Friday, Feb. 25 at the Gordon Alcott Arena from 8 p.m. to 1 a.m. Tickets are \$20 per person and receipts will be given. For tickets contact Work that Body at 877-0771 or Mal Dodge at Re/Max at 877-5211.

Heart disease and stroke will effect more than 40 per cent of Ontario's population in 1994. For Ontario businesses this translates into a loss of productivity of approximately \$4.5 billion per year.

If you would like to help with the February campaign, please call Bob or Marny Malcolmson at 877-2972.

### CONVENIENT FINANCING AVAILABLE

## PARK LINCOLN-MERCURY

Located conveniently in Halton Hills on Hwy. 7 - between Georgetown and Acton

**877-2261**

**OVER 40 VEHICLES TO CHOOSE FROM**

Tony Walker of Georgetown visited with Joan Lanky R.N. of the Red Cross as he donated blood at the Valentine's Day blood donor clinic.

## 252 units of blood donated

Red Cross officials reported 269 donors attended the blood clinic Monday, Feb. 14, and donated 252 units of blood.

This clinic was sponsored by the Optimist Club; their help with distribution of posters, setting up clinic, loading equipment and general assistance at the clinic is appreciated.

Thanks to Dr. Thompson who was on call, volunteers, staff, nursery help and drivers, the clergy, John Ollivier of Halton Cable Systems, Halton Hills Hydro for displaying promotional banners, Dairy Queen for donations of juice and cups, Pizza Hut for tea and serviettes, Miracle Mart for coffee, Loblaw's for donuts, Mr. L. Ferguson of Mac's Milk and Coca-Cola Ltd. for soft drinks, C.W.L. for kitchen help and Mr. C. Domingos for use of Holy Cross Auditorium.

Special thanks to Mauak Bapooje and her telephone committee, to Shirley Chaplain for publicity and promotion and to Ellen Chatten and Anna Ewen convenors of this clinic.

Donor Awards were given to: Ron Fiddler 35, Kim Pirif 35, Brenda Donnelly 20, Mike Hunter 20, Maurice Lamothe 100, Michael Sargent 75, Irene VanRyn 20, Clarence Otten 50.

The next regular clinic for Georgetown will be Monday, May 9.

DENTURIST

### ADJUSTING TO NEW DENTURES

**FEEL**  
At first your new dentures might feel very large in your mouth. You may even experience a gag reaction. This is normal in the beginning. In time, with a little patience and practice, you will adjust naturally to this initial fullness and barely notice it in your mouth.

**SPEECH**  
Many new denture wearers have difficulty at first with their speech. Words containing "S" sounds can be a problem. Practicing speech aloud with your new dentures in place will help restore your normal speaking quality. Try reading aloud from a book or magazine in front of the mirror. This will help you to get used to the new speaking position of your tongue and new denture. This will also give you more confidence. Also, before you speak, it is helpful to first bite and swallow. This will "set" the dentures in position and improve clarity.

**EXCESS SALIVA**  
When you first receive your new dentures, you will probably notice an increase in the flow of saliva in your mouth. This is a normal response to the unfamiliar new denture. On the average, most people swallow about 600 times a day. For the first few days after receiving your new teeth, you should try to swallow more frequently. After a few days have passed, your mouth will become used to the denture, and saliva flow will return to normal.
