

THE POWER OF

MAGINATION

CANADA'S FIRST TELECOMMUNITY WILL CHANGE THE WAY YOU LIVE FOREVER!

ORIGINAL VILLAGE HOMES FROM **\$109,900** \$500 Initial Deposit

Montgomery Village is an intimate, neighbourhood community in Orangeville that celebrates the original

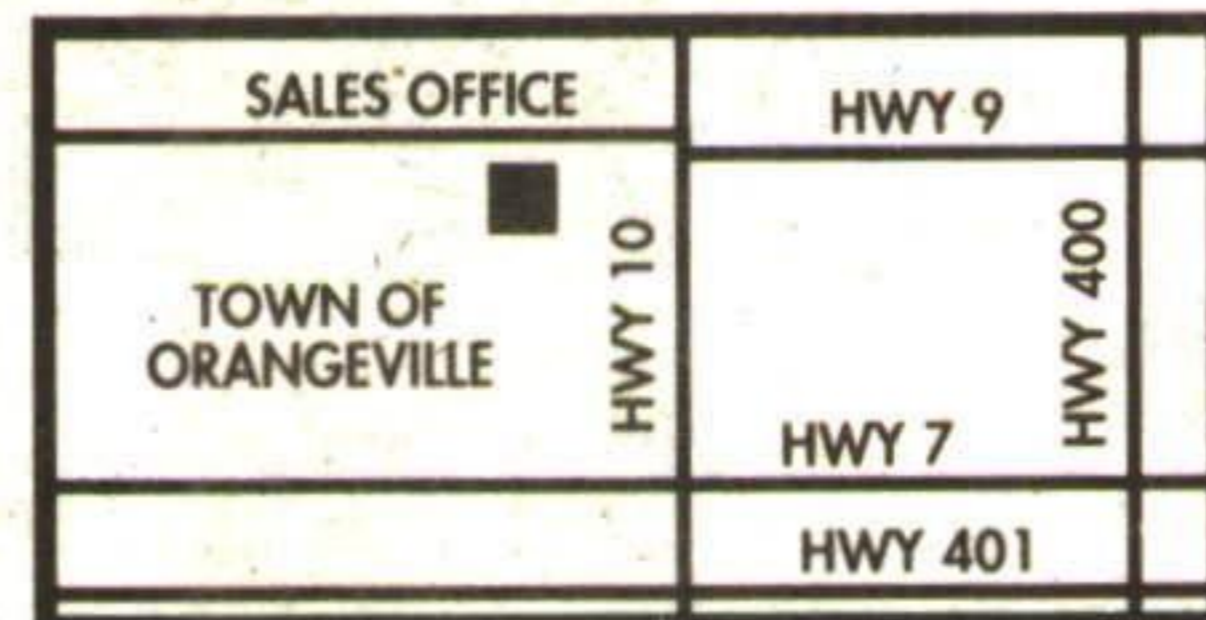

character of a **village** environment. It will be Canada's first new community to have an **ISDN** communications network linking all homes and business to the **'information highway'**! •We incorporated places to walk with **access to nature** within the community and linked to Orangeville's extensive network of trails •We designed

homes with features like **front porches**, balconies, rear **coach-house** garages, 3-sided gas fireplaces, wired **home offices** and private third floor **retreats** •We freed the streets from an endless, stretch of driveways and garage doors, resulting in a neighbourhood

which is **friendlier**, more attractive and refreshing. Come Back To The Future...Today!
