Acton Support Services and Information Centre

An imaginative federal and provincial initiative from Winnipeg call ARCOR (Canadian Aging and Rehabilitation Product Development Corporation) researches and develops new products in an effort to get them onto store shelves. This is accomplished through a "clearing house of knowledge" that is easily accessible to everyone.

For example, ARCOR will perform a free-of-charge product search that will scour the market for a product to fit the bill. They will assist inventors to get ideas off the ground and if they can not find a product, which is in demand, they will design, manufacture and deliver it to the market themselves.

Inventors and those seeking product information can contact ARCOR, 265 Notre Dame Ave.,
