

In the last two weeks there have been two fights at the high school. The Board of Education has been attempting to come up with a Safe School Plan for the last month or so. There have been meetings at hotels in downtown Toronto to resolve the problem.

Vice principal Sheila Emmer-son is chairing a council to prevent violence in the school. She is working on a prevention and response program to combat the conflict; what to do if there is a fight and how to prevent it.

All this talk of safety in our schools, not only in Halton but across Ontario, seems to have had no effect. With teachers being shot in Toronto and the talk of metal detectors, it makes you wonder what action the board of education is willing to take. Clearly, there must be some form of prevention, lets just hope they find it.

at GDHS. Some of the words were spelled wrong almost purposely, it reminded me of lyrics from song or poem.

The two students will pay for the repainting of the hallway which was about \$1000. They also received an out-of-school suspension.

On November 19 the Parents Advisory Council will be hosting their community dance at GDHS. The event is to raise money for the school to counter act any cut backs to their programs.

Along with other live bands, Mr. Neil Cotton, head of the Science Department, will be playing with his band, Hawks Nest.

Bell Canada provides Actonians with ESA service

Acton residents looking for a Guelph telephone number can call Bell directory assistance, 411, without the fear of being charged for the number.

Perry Blocher, communications manager for Bell Canada said, "Acton has been provided with Extended Service Area (ESA). Acton is listed in the Halton directory, and Guelph is listed in the Region of Waterloo."

Blocher said since Acton is pro-

vided with ESA, and the two areas are not long distance and in different directories, then Acton residents will not be billed for 411 numbers.

Blocher said listed in the front of the Bell Telephone Book are the Guelph exchanges which Acton can call without incurring long distance charges. The Canadian Radio-television and Telecommunications Commission (CRTC) stipulates that in order for Acton to remain sanctioned ESA, "community of

interest," must be shown and, "requires that at least 60 per cent of customers in one exchange call the other exchange at least once a month in any two months in a 12-month consecutive period."

Lisa Ellsmere, public affairs officer said Bell will not automatically send out a Guelph area phone books to Acton residents, but if they phone Bell's business office and request a directory, one will be sent.

DENTURIST

THE MISINFORMATION PROBLEM

Despite the widespread publicity that attended the efforts of Denturists to secure the passage of legislation that would allow us to deal directly with the public, many people in Ontario are still not aware of what a Denturist is or what services we provide. Since 1970 and particularly since 1974, when the Ontario Legislature passed the "Denture Therapist Act, 1974" many Ontario citizens have directly availed themselves of the services provided by denturists.

"DENTURE THERAPIST"

Compounding the problem of public confusion is the fact that when the Provincial Government finally enacted legislation, they described the services provided by Denturists as "denture therapy" and designated the new dental health worker as a "denture therapist". While all members of the Denturist Association of Ontario are licensed "Denture Therapists" we often use the name "Denturist" because of its familiarity to the public. In addition, like other professions, advertising practices are restricted. Although less-known than other professions, denturists have never the less provided an important health service to the people of Ontario. Not only does the denturist (Denture Therapist) provide a full range of denture services directly to the patient, but he provides this service at a cost that make wearing dentures possible for many who could not otherwise afford them. There are currently nine provinces and one territory in Canada where this service is possible. Besides Ontario, denturists in British Columbia, Alberta, Saskatchewan, Manitoba, Quebec, New Brunswick, Nova Scotia, Newfoundland and the Yukon Territory also have the same right to serve the general public. You do not need a referral from your denturist. Simply call our office direct.
