

WHEELS

SALES REPORT: Hyundai's compact Elantra has topped 500,000 in sales since being launched in 1991. The milestone sale, a 2017 Elantra GL, was delivered to a customer in Montreal, Quebec. With the arrival of the 2017 model, six generations of Elantra models have been proudly displayed in Hyundai dealership showrooms coast-to-coast. For company executives, the all-new Elantra has some big shoes to fill. The Elantra combines the latest features and technology and making them accessible to buyers. The 2011 Elantra, for example, was the first compact car to offer heated rear seats.
