having fun. Sure they were competitive they didn't get to that level without having a fire in their bellies but they were having FUN!

Junior golf is a great way to introduce your child to an individual sport that you can have fun with your friends and enjoy the outdoors. Those who choose to compete will find the right level at the right time for them.

Juniors, if you are thinking of getting started in golf, get some instruction on the basics and get out there and play.

The game is one you can play for life and learn some valuable life lessons like respect, fairness and sportspersonship. Most importantly you can have FUN playing at whatever level you choose. Get started!
